SSR, holding a birth certificate series II - OG No. 463794.

Place of filling out the certificate: Date: Time:
Surname, name, patronymic of the person completing the
certificate: Babaeva Tatyana Pavlovna

I hereby certify the following: On March 28, 1994, at 16:00 Delhi
time, a delegation consisting of psychic Grigory Petrovich Grabovoi, a
translator from English to Hindi, a representative of AD Consultants
LTD" Vanerzhi K. and me, Babaeva Tatyana Pavlovna, translator from
English to Russian, visited the center of the entire Hindu religion
Barla Mandir, with the purpose of getting acquainted with the
monuments and traditions of the Hindu religion, as well as with the
purpose of finding a highly spiritual person who could determine the
level of extrasensory abilities of Grabovoi Grigori Petrovich. The
supreme minister of this temple, when asked which of the clergy
could determine the level of extrasensory abilities of Grabovoi G.P. ,

answered that Grabovoi G.P. has a very high level of extrasensory abilities and that in Delhi there is no person who could assess his level. The minister of Barla Mandir advised visiting the religious institute - Chattrapur Mandir in New Delhi (near Qutab Minar), which is one of the sacred places of India, headed by a man revered as a saint in his lifetime - Baba Nagpal.

I was indeed an eyewitness to all of the above, which I confirm with my signature in the presence of two witnesses.

CERTIFICATE

ABOUT THE MEETING OF PSYCHIC GRABOV GRIGORY PETROVICH
AND THE HIGH HOLY CHATTRAPUR TEMPLE (NEAR K U T A V
MINAR) ONE OF THE HOLY PLACES IN INDIA.

The meeting was attended by:

Psychic Grabovoi G.P.

Translator from English to Russian , representative of " ISEA"

Babaeva T.P.

Translator from English to Hindi Mona Dua

The organizer of this meeting is Kamal Dua religious this temple,
which is a place of worship for high-caste people and the highest
official government circles of India.

Date of visit of Grabovoi G.P. March 29, 1994

The purpose of Grabovoi G.P.'s visit was to meet with the highest
priest Baba Nagpal.

Kamal Dua confirms the fact that the meeting of Baba Nagpal and
Rajiv Gandhi, former Prime Minister of India lasted 2 minutes, that
the Gandhi family constantly receives his blessings. To see Baba
Nagnal is a great happiness for any resident of India. Meeting him
fills a person's heart with a feeling of great reverence and respect for
him. When Grabovoi G.P. and other members of the delegation
arrived at the Chatrapur Temple, the priests , administration and
security service categorically refused to meet, despite repeated
requests from translators and Kamal Dua. Then Grabovoi G.P.
suggested that the Temple Representatives convey to Baba Nagpal
that HE, Grabovoi Grigoriy, had come. When the message was

conveyed to Baba Nagpal, despite the lunchtime, he invited Grabovoi to a meeting.

The meeting between Grabovoi G.P. and Baba Nagpal began at 13.55 Delhi time .

Baba Nagpal said that now the economic and political situation in the former republics of the USSR is very difficult . Russia is not such a strong country now and suggested to Grabovoi G.P. to solve the country's problem at the state level, to unite all the states and make Russia a strong country.

Grabovoi G.P. said that he thinks that the unification of states is necessary for progress. And Baba Nagpal said that he blesses Grabovoi G.P. for the unification and strengthening of states and will pray for him.

Baba Nagpal attested to the very high extrasensory and energetic level of Grabovoi G.P. Baba Nagpal believes that high extrasensory abilities and energy of Grabovoi G.P. , which are confirmed by official certificates , he must use to unite and govern states .

The meeting between Grabovoi G.P. and Baba Nagpal ended at 14.18 Delhi time. time .

The translation of this certificate from English into Russian was done by Babaeva T. P.

I, Malyutin Alexander Vladimirovich

state: citizen Russian Federation

date of birth: 10.01.1972

Name of the company: working translator with knowledge of English

Residential address and home telephone number: resident 121352,

Moscow, Davydkovskaya st. 12-2, apt. 49, tel. 449-3441

name of document, series, number: passport with identity card,

series 43 No. 5405128, issued by Department of Internal Affairs

428, 02.04.1994.

I testify that the psychic Grabovoi G. P. (holding passport series III-OG No. 586058, issued on 01.02.1980) on December 10, 1994 at 11:30 a.m. held an official meeting with Mrs. Yuko N. Labo, the wife of Mr. Ramon (Jun) L. Labo Jr. Mrs. Yuko N. Labo, a clairvoyant, who is a well-known Filipino healer, performs operations with her hands (without the use of surgical instruments) to remove diseased tissue and neoplasms. The meeting took place at the clinical center of Ramon (Jun) L. Labo Jr. at the address: 444 Naguilian Road, Baguio City, Philippines. Her phone number: 0063 74 442-3030.

Having learned only the name of Grabovoi G.P., Mrs. Yuko N. Labo invited him to come closer to her and open his palms in front of her. Then Mrs. Yuko N. Labo brought her palms closer to the open palms of Grabovoi G.P. at a distance of about 10 cm and concluded that Grabovoi G.P. has a very strong soul. According to Mrs. Yuko N. Labo, the main task for Grabovoi G.P. in modern conditions is to protect the whole world, and not a single country. Mrs. Yuko N. Labo also noted that Grabovoi G.P., possessing such powerful extrasensory abilities, relieves the ever-increasing tension in the world, thereby contributing to the organization of a safe, peaceful life for all countries of the world. Mrs. Yuko N. Labo, who has the gift of prophecy, was

convinced that Grabovoi G.P. will definitely fulfill his destiny to unite all countries of the world, at the level of official state governance of countries.

At the request of Mrs. Yuko N. Labo, Grabovoi G.P. conducted a diagnosis of the body and prescribed her his course of extrasensory treatment in absentia from December 10, 1994 to March 5, 1995.

When saying goodbye, Mrs. Yukon N. Labo expressed a desire to meet again with Grabovoi G.P. Mrs. Yukon N. Labo also asked Grabovoi G.P. to conduct extrasensory work on organizing political life in the Philippines.

Department of Internal Affairs 435, 15.04.1994.

I certify that the psychic Grabovoi G. P. (holding passport series III-
OG No. 586058, issued on 01.02.1980) had an official meeting on
December 08, 1994 from 13.30 to 14.00 Manila time with the
President of the Institute for the Development of the Inner Mind, Mr.
Jaime T. LICAUCO. The Institute is located at the following address:
Rm. 308 Prince Plaza 108 Legazpi St., Greenbelt Makatl, Metro Manila
1228, Philippines and has the following telephone numbers: 892-68-
06, 810-72-45. Fax: 815-98-90.

After mutual introduction, he showed great interest in the work of

Grabovoi G.P. in the field of extrasensory diagnostics technology, event correction and healing.

He expressed his willingness to undergo diagnostics and a course of treatment at a distance with Grabovoi G.P. After his request, Grabovoi G.P. diagnosed him and prescribed a three-month course of contactless extrasensory treatment, conducted by Grabovoi G.P. regardless of the distance to the patient.

SAMPLE PROGRAM OF THE STAY OF G.P. GRABOVOY IN TBILISI, 15-20 September 1995

Grigory Petrovich was delivered by the plane of the ORVI airlines /
the ticket will be paid with us in Tbilisi/. At Vnukovo airport, Grigory
Petrovich will approach the airline's office /waiting room, second
floor/, introduce himself and they will escort him to the plane.

In Tbilisi, Grigory Petrovich will be met by the Deputy Minister of
Health of Georgia T. Kalandadze /if the Minister - A. Jorbenadze - is
there at that time V Tbilisi, he will also come to meet Grigory
Petrovich /there is an agreement /. Grigory Petrovich will live in a
single suite at the Muza Hotel .

Drama Theatre named after Griboyedov /800 seats/ will be rented
for the meeting with the public, journalists and patients .

Approximate scenario of the meeting:

I will briefly introduce those present to the personality of Grigory
Petrovich and his capabilities; Georgy will be with me, -he will also
talk about Grigory Petrovich. The hall will be attended by oncologists
and those who treated Georgy in Tbilisi, who will confirm what has
been said . Then the floor will be given to Grigory Petrovich and after
that -to the polling of the hall. On each chair in the hall there will be
a questionnaire and at the request of those present it will be filled out
right there . Our employees will collect these questionnaires and
present them to Grigory Petrovich.

We assume the following work schedule:

Day 1 -arrival, accommodation, city tour , visit to the ancient capital of Georgia -Mtskheta, 9th and 11th century monasteries Svetitskhoveli, Jvari /25 km from Tbilisi/

Day II: -meeting with the public at the Griboyedov Theatre.
Reception of visitors , meetings with correspondents.

Ill day -at the discretion of Grigory Petrovich.

LET'S go comments and suggestions from Grigory Petrovich.

STATEMENT

on establishing the fact of recognition of Grigori Petrovich Grabovoi healer and clairvoyant

I was born on 1 943 / 01 / 29 / in Saransk, Mordovia, Russia

I have an identity card:

I work: Bulgarian National Television -editor 43 481

In connection with the fact that I turned to Grigori Petrovich Grabovoi, born on November 14, 1963 in the village of Kirovsky, Kirovsky district , Chimkent region, Kazakh SSR holding a birth certificate series II-OG No. 463794, for filming a movie about a meeting with Vanga -the prophetess on October 27, 1995 in Bulgaria

I declare that Grigori Petrovich Grabovoi actually had a conversation with Vanga, -the prophet of Bulgaria , on October 27, 1995, from 11:30 to 12:20. The issues discussed were the nuclear-ecological danger on the planet, the extension of human life, the possibility of immortality, and the unification of religions.

Grabovoi was asked questions, on which Vanga expressed her opinion, in particular, that Grigori Petrovich, possessing phenomenal qualities, must necessarily continue to treat people and expand the areas of application of his abilities. He must work in Russia, from where the results will be disseminated to all countries of the world. In 20 years, he will achieve what he dreams of.

At the beginning of the conversation, Vanga was confused by Grabovoi's bold thoughts, but gradually became more confident.

Please certify my application on the basis of documents proving my

identity and on the basis of the above evidence.

HEGUMEN JOHN EKONOMTSEV
ORTHODOXY BYZANTIUM RUSSIA

collection of articles

" CHRISTIAN LITERATURE "

Moscow 1992

Autograph of Abbot John Ekonomtsev:

To the respected Grigory Petrovich with wishes of God's help

HEGUMEN JOHN EKONOMTSEV

Father John's book is a serious study by a historian and theologian. As a historian, he is "objective" and erudite in source studies. As a theologian and priest, he loves the subject of his research. Father John is drawn into the past not by idle curiosity. For him, turning to history is most likely an "exodus", an escape from Babylonian captivity, a search for the promised land, the historical and spiritual Homeland .

He strives to restore the connection of times, to overcome the seismic failure seven decades deep, understanding that the acquisition of historical memory has for us not only epistemological, but also, mainly, existential significance. After all, to lose memory for a person -means to cease to exist as an individual, and for a nation -to degrade and, having lost the consciousness of unity, to disappear historically. Is this not why the assessments of the events of "long-gone days" sound so excitingly topical in this book ?

Central headquarters of the paramilitary
mine rescue units

coal industry of Russia

(TsSh VGSCCh UP RF)

June 16, 1995

15:00

1. PURPOSE OF THE EXPERIMENT

The purpose of the experiment was, under an agreement with the administration of the President of the Russian Federation, to establish the ability of Grigory Petrovich GRABOVOI, born on November 14, 1963 in the village of Kirovsky, Kirovsky district, Chimkent region, Kazakh SSR, holding a birth certificate series II-OG N 463794, to extrasensorily determine the locations of accidents, the number of living victims and ventilation failures in mines according to the diagram.

2. PURITY OF THE EXPERIMENT

The purity of the experiment consisted in the fact that:

2.1. The location of the adits was provided under strictly experimental conditions according to the ventilation scheme in such a way that before the start of the experiment no one knew which schemes would be transferred for the extrasensory diagnostics of the mines by GRABOV G.P.

(Continuation of the protocol of testing the extrasensory abilities of Grabovoi G.P. from June 16, 1995, 15:00 Moscow, Novy Arbat St., 15, room 933 see on page 2)

Numbered side of sheet No. 285

Page 2 of the Protocol of verification of extrasensory abilities of
Grabovoi G.P., dated June 16, 1995, 15:00 Moscow, Novy Arbat St.,
Building 15, Room 933

2.2. GRABOVOI G.P. extrasensorically, almost immediately after the
diagram was presented to him, correctly indicated the locations of
accidents on the diagrams, accurately determined the number of
living people injured and their location, correctly determined the
locations of ventilation failures without time for questions and without
knowing the coordinates of the shafts on the ground.

2.3. Independent experts learned about the task of conducting an
experiment to test the ability of GRABOVY G.P. to conduct
extrasensory diagnostics of mines immediately after meeting
GRABOVY G.P. and arbitrarily set tasks. The expert commission
included highly qualified specialists and senior staff of the Central
Headquarters of the paramilitary mine rescue units.

3. DATA AND RESULTS OF THE EXPERIMENT

3.1. GRABOVOY G.P., using extrasensory means, without providing
him with any preliminary information, within one second after he was
given the ventilation diagram of the Vorkutinskaya mine of JSC
Vorkutaugol, correctly and precisely according to the location of the
diagnostic objects, performed the following:

3.1.1. Correctly identified the location of the fire.

3.1.2. Correctly identified the locations of two living victims in the
ventilation adit.

3.1.3. Correctly identified ventilation violations in emergency lava.

3.2. GRABOVOI G.P. carried out extrasensory diagnostics of the
scheme, without having information about the location of the mine on
the ground, that is, simply from a sheet of paper.

3.3 The layout of the mine was chosen by the members of the
expert commission and arbitrarily, immediately after meeting with
GRABOV G.P. to set the objectives of the experiment.

3.4. GRABOVOI G.P. correctly answered the tasks set before him: using extrasensory means he determined the place of occurrence

(Continuation of the protocol of testing the extrasensory abilities of GRABOVOI G.P. from June 16, 1995, 15:00 Moscow, Novy Arbat St., 15, room 933 see on page 3)

fire; number of people left alive and their location; places of ventilation violations. Thus, under conditions of a pure experiment it was established that G. P. GRABOVOY, by extrasensory means, practically instantly correctly diagnoses the mines according to the scheme.

4. CONCLUSION

4.2. GRABOVOY Grigory Petrovich, using extrasensory methods, instantly diagnoses and correctly shows on the diagram the locations of fires, the number and locations of living people in the adits, and the locations of ventilation problems.

4.3. We consider it advisable to cooperate with G. P. GRABOV in the field of forecasting and preventing emergency situations, finding and rescuing people from accidents at coal enterprises.

WITH WITNESS

This certificate, issued by the Central Headquarters of the
paramilitary mine rescue units , certifies that GRABOVOY G.P., born
on November 14, 1963 (November 14, 1963) in the village of
Kirovsky, Kirovsky District, Chimkent Region (holding birth certificate
series II-OG N 463794) by extrasensory means, according to the
mine ventilation scheme, instantly performs the following :

1. Correctly identifies the locations of accidents.
2. Correctly determines the number and location of living people
involved in an accident.
3. Correctly determines the places of ventilation violations.

The expert commission, having established the ability of G. P.
GRABOVY to correctly determine the location of accidents, all living
people and ventilation failures using extrasensory methods based on
diagrams , considers it necessary to cooperate with G. P. GRABOVY in
the area of forecasting and preventing emergency situations, and
rescuing people from accidents at coal enterprises.

Information about diagnostics of the car Mo s kvich. TNB -
by operator Grabovoi G.P. conducted on 20.07.93 .
in the presence of the director of the Central Election Commission
NAC Morozkina N.R.

On the way from the NAC Directorate to the NAC Central
Intelligence Agency , the car stalled at the intersection near the
Rossiya Hotel . After repeated attempts by the driver to start the car,
Grabova G.P. said that the reason was that the spark plug was
choking . The driver reported to H.P. Morozkina in the morning of
21.07.93 that one spark plug was indeed inoperative . He found this
out in the evening while doing preventive maintenance on the car.

to the testimony of the extrasensory work of Grigori Petrovich
Grabovoi

born on November 14, 1963 in the village of Kirovskoye (village
Bagara) Kirovsky district of the Chimkent region of the Kazakh SSR
(having a birth certificate series II - OG No. 463794)

on extrasensory diagnostics

software and hardware of personal computers

Place of filling the certificate: Tashkent Date: 1996.11.14 Time: 16-00

Surname, name, patronymic of the person completing the
certificate: Lunina Olga Nikolaevna

I declare that I was an eyewitness to the following extrasensory
experiment of Grigori Petrovich Grabovoi:

In the aviation technical base of the Tashkent united air squadron,
psychic Grabovoi G.P., at my request, carried out work with a
personal computer IBM PC/XT to determine the cause of the
following malfunction: " When working on an IBM PC/XT of the
software for processing flight information, a difficulty arose with

archiving copies of flight data. After creating the archiving program, a failure was regularly detected when executing the command: P K ZIP. In this regard, psychic Grabovoi G.P. transmitted his psychic information on March 5, 1992: "The reason is that there is a defect on the hard drive of the IBM PC/XT that prevents the execution of a number of operations." After checking the information received by transferring the working program to another disk, no error was detected when executing the specified command, i.e. the psychic information about the defect was confirmed. This fact is recorded in protocol No. 12/92 on the psychic work carried out by Grabovoi G.P.

I was indeed an eyewitness to all of the above, which I confirm with my signature in the presence of two witnesses.

I believe that the extrasensory abilities of Grigori Petrovich Grabovoi to identify defects in technical information carriers allow us to effectively and quickly restore the functionality of computer systems that support the technological processes of complex industries.

on extrasensory diagnostics

software and hardware of personal computers in November 1991

Place of filling out the certificate: Tashkent city Date: 1996.12.04
Time: 12-35

Surname, name, patronymic of the person completing the
certificate: Valitov Radik Tafikovich

I declare that I was an eyewitness to the following extrasensory
experiment of Grigori Petrovich Grabovoi:

In my presence in November 1991, the psychic Grabovoi G.P. was
offered twenty diskettes for virus diagnostics. Grabovoi G.P. after
visually examining the diskettes (that is, without using computer
equipment or specialized virus detection software, but simply by eye)
accurately identified five virus-infected diskettes.

In addition, the psychic Grabovoi G.P. carried out work on

extrasensory influence on software in order to remove viruses by extrasensory means. When copying a program file from a virus-infected floppy disk to a hard drive during the extrasensory influence of Grabovoi G.P. , the program file was written to the hard drive in a volume 10 times smaller than the original. When copying , the Dir virus should have been transferred from the floppy disk to the hard drive, but this did not happen, which was shown by the Anti-Dir antivirus program . Therefore, at the moment of rewriting the file from the floppy disk to the hard drive, Grabovoi G.P. performed extrasensory influence on the transferred information, the virus was destroyed and was not rewritten from the floppy disk to the hard drive.

These facts are reflected in protocols No. 04/91 and No. 05/91 on the extrasensory work carried out by Grabovoi G.P.

I believe that this experiment confirmed the extrasensory abilities of Grigori Petrovich Grabovoi to detect very subtle information-energy connections on technical information carriers (floppy disks) and control the process of rewriting information, cutting off the information flow of the virus. These abilities can be used in serious information environments in the presence of artificial interference.

I was indeed an eyewitness to all of the above, which I confirm with my signature in the presence of two witnesses.

CERTIFICATE

We, the undersigned, confirm by this certificate that we were witnesses and participants in the following events:

Psychic Grabovoi Grigori Petrovich 01.02.94 warned the head of the computing complex "Sirena-2" about the inadmissibility of introducing changes into the software and technical environment of the automated system "Sirena-2" without protocol recording of any changes, since this can cause deformation of the energy environment of the object, which will lead to unforeseen consequences during the operation of the system in industrial mode .

The implementation of the psychic's recommendations was delayed and as a result the deformation of the energy system, increasing every day, led first to instability of work in the Tashkent data processing center, and then manifested itself in the main interaction with the Moscow data processing center.

The search for faults and causes of unstable operation of the automated system "Sirena-2" in the Tashkent data processing center by specialists of the computing complex "Sirena-2" of the center of information and computing services of the national airline was conducted in the last ten days of February and did not yield any results. In the report of specialists from 02.03.94 it is guaranteed that the reason for the failures cannot be in the condition of the technical or software means of the data processing center.

Since 01.03.94, failures in the trunk interaction of the Tashkent and Moscow data processing centers have led to the impossibility of selling and booking return air tickets. Leading specialists of the

Tashkent data processing center were sent to Moscow on 09.03.94 to identify the causes of failures in the trunk interaction of the Moscow and Tashkent data processing centers. Specialists of the Moscow data processing center stated that the technical means and software of their data processing center are operative and that there are no failures in the trunk communication channel, since the exchange of service information was proceeding normally.

The automated system "Sirena-2" of the Tashkent data processing center was stabilized after the head of the computing complex "Sirena-2" executed the instruction of the director of the center of information and computing services of the national airline on the immediate preparation of all instructions on conducting protocol control of all changes made to the system "Sirena-2" and the data transmission system "Asia" by specialists of the computing complex "Sirena-2" and the foreign economic society "Rampa". The execution of this instruction after 16:00 hours 03.03.94 led to the stabilization of the work of the technical means and software of the Tashkent data processing center - within its region - without the intervention of specialists of the computing complex "Sirena-2", only due to the correction of the deformed energy of the system by psychic Grigori Petrovich Grabovoi.

The restoration of the main interaction of the Moscow and Tashkent data processing centers also occurred without the physical intervention of the centers' specialists only due to the correction of the energy environment of the "Sirena-2" system by the psychic Grabovoi G.P. after the formation and signing of a protocol stating that the leading specialists of the Main Computer Center The Russian VD guarantees the operability of the Moscow data processing center.

The fact that two hours after the signing of the protocol, without the intervention of specialists from the Moscow and Tashkent data processing centers, the cashier of the Tashkent data processing center selected the first return ticket through the Moscow data processing center, is recorded in the protocol

Unnumbered (reverse) side of sheet No. 295

archive of the automated system "Sirena-2" of the Tashkent data processing center.

Thus, in this case, only an extrasensory viewing of the situation allowed us to issue recommendations, the implementation of which made it possible to correct the energy of the system and restore its functionality without the physical intervention of specialists.

NOTE. The right to carry out extrasensory control of the state of the Asia data transmission system as part of the Sirena-2 automated system is given to psychic Grabovoi G.P. by order No. 331 of 01.04.93 of the Directorate of the National Airline of Uzbekistan.

to the testimony of the extrasensory work of Grigori Petrovich Grabovoi

born on November 14, 1963 in the village of Kirovskoye (village Bagara) Kirovsky district of the Chimkent region of the Kazakh SSR (having a birth certificate series II - OG No. 463794)

Place of filling out the certificate: Tashkent city Date: 1996.12.06
Time: 18-00

Surname, first name, patronymic of the person completing the certificate: I, Morozkina Nora Raimovna,

I hereby certify the following:

In September 1993, I authorized a trip to Moscow for a meeting for leading specialists of my Computing Center, responsible for the maintenance of the ACS "Sirena-2", functioning in real time. Two

days later, the system crashed, paralyzing the work on the sale and reservation of air tickets at all the ticket offices of the Tashkent airport. A team of technical service specialists checked all the units of the technical equipment, but all test checks confirmed their operability. The cashiers were transferred to the manual mode of selling air tickets. In the five years of operation of the system, such cases have not been in the practice of our specialists. I contacted the expert psychic Grabovoi Grigori Petrovich with a request to conduct psychic diagnostics of the software and hardware complex "Sirena-2" in order to identify and eliminate the true cause of the failure.

Grabovoi Grigori Petrovich gave the following information: a one-time virus module was introduced into the software environment of the system. Only the head of the department of the AS "Sirena-2" will be able to figure out the cause. I immediately recalled the head of this department from Moscow and gave him the task of checking the actions of the technical service specialists. After he confirmed to me in writing the correctness of the work performed by the technical specialists in his absence, I allowed him to start finding out the cause of the software failure. He began to carefully study the protocol archives of the system. This took another day. The cause was not clear. The next day, I again contacted Grabovoi G.P. with a request to review the situation. His answer confused me. He said: "If the head of the department does not find out the cause today, tomorrow the cause will be artificially replaced by a circuit-technical one." I did not doubt the honesty of the head of the department, a highly qualified specialist who was searching for the cause of the failure, and I tensely awaited the result. The next day, at the beginning of the working day, the excited head of the department came to me with the message that he had found torn wires and a faulty board in the communication node. Everything became clear to me. At five in the morning of that day, the remaining specialists flew in from Moscow, one of them had clearly passed through this communication node. The fact that the only one confirmed Grabovoi's extrasensory information

Surname, name, patronymic of the person completing the certificate: Morozkina Nora Raimovna

the working board was at home, with one of the specialists who had arrived from Moscow. I went to his home myself, picked up the board, and brought it to the airport. Within 2-2.5 hours the system came to life and airline tickets began to be sold through the control panels of the AS "Sirena-2". The protocol materials confirming the above are stored in the archive of the Center. In February-March 1994, Grigori Petrovich Grabovoi conducted another very interesting experiment on the correction of the energy environment of the software and hardware complex of the AS "Sirena-2". At a working meeting in the TsIVU NAC warned the head of the Sirena-2 computing complex about the inadmissibility of introducing changes into the software and technical environment of the Sirena-2 automated system without protocol recording of any changes, since this could cause deformation of the energy environment of the facility, which would lead to unforeseen consequences during the operation of the system in industrial mode.

The implementation of the psychic's recommendations was delayed and as a result the deformation of the energy system, increasing every day, led first to instability of work in the Tashkent data processing center, and then manifested itself in the main interaction with the Moscow data processing center.

The search for faults and causes of unstable operation of the automated system "Sirena-2" in the Tashkent data processing center by specialists of the computing complex "Sirena-2" of the center of information and computing services of the national airline was

conducted in the last ten days of February and did not yield any results. In the report of specialists from 02.03.94 it is guaranteed that the reason for the failures cannot be in the condition of the technical or software means of the data processing center.

Since 01.03.94, failures in the trunk interaction of the Tashkent and Moscow data processing centers have led to the impossibility of selling and booking return air tickets. Leading specialists of the Tashkent data processing center were sent to Moscow on 09.03.94 to identify the causes of failures in the trunk interaction of the Moscow and Tashkent data processing centers. Specialists of the Moscow data processing center declared the technical means and software of their data processing center to be operational and

name of the document, series, number, by whom and when the
document was issued: I have an identity card, passport XII-US No.
701180, issued on 21.02.1985 by the Leninsky District Executive
Committee of Tashkent.

I certify that on February 16, 1994, Grigori Petrovich Grabovoi,
using contactless extrasensory influence, without using computer
control devices, repeatedly copied file information from one computer
disk to another. When G. P. Grabovoi exerted contactless influence
on the computer, he was at a distance of two meters from the
computer and the computer's peripheral devices.

The information in the files was rewritten into files that were free
before the extrasensory influence of Grabovoi G.P. and which were
filled with information immediately after the extrasensory influence
emanating from Grabovoi G.P.

Grabovoi G.P. completely controlled the situation during contactless
extrasensory copying of files from disk to disk, since he contactlessly
copied from one disk exactly those files that he needed on another
disk and contactlessly copied them to the disk to which he wanted to
copy them.

In addition to contactless extrasensory recording of the necessary
information on a disk, Grabovoi G.P. used contactless extrasensory
influence to change the date and time of recording a file on a disk.

Protocol of the impact of Grigori Petrovich Grabovoi on a personal computer , which caused the compaction of information onto non - existent physical media .

On October 23 , 1997, one disk (1.44 MB) with the program of Grigory Petrovich Grabovoi was copied onto ten similar disks on a computer with a 486 series processor and a clock frequency of 9.9 MHz, located in the organization of TOO Firma " DANI" at the address : Moscow , 11th Parkovaya Street, Building 44, Building 2. The grease was produced in the period from 17-20 to 17-50.

In one case , a recording occurred on a diskette on which information from the original source had already been recorded , i.e. a secondary rewrite occurred .

Data of Grabovoi G.P .: Date of birth: November 14, 1963 ,

(VNPP "PROGRESS")

CERTIFICATE

As a result of repeated and regular examinations by independent experts, competent commissions and employees of VNPP Progress, it was established that the psychic Grabovoi G.P. is capable of the past , present and future tenses, i.e. regardless of time:

I. In the field of perception of the senses.

1. Accurately determine the feelings and thoughts of people about whom he has no prior information.

2. Accurately identify people's feelings and thoughts by their last name, first name, or patronymic.

2. Determine the motives of people 's behavior .

II. In the field of deciphering the cause of events.

1. In fact, it always correctly establishes the essence of the event and accurately indicates ways to remove negative consequences and methods for positively resolving issues.

III. In the area of influence on events.

1. Adjust events.

All of the above was established by combining subjective and objective data from experts determined as a result of the work of the psychic Grabovoi G.P. within the framework of agreements on the use of his extrasensory abilities.

CERTIFICATE

This certificate certifies that the psychic Grabovoi G.P. is capable of for the past, present and future time, i.e. regardless of time:

I In the field of clairvoyance:

1. To accurately determine the appearance and character of people without having prior information.

2. Accurately determine the appearance and character of people by their last name, first name or patronymic.

3. Accurately identify faults, defects, and failures of equipment of any level of complexity using photographs , diagrams, drawings , catalogs, items related to the equipment, and the number corresponding to the equipment.

II In the field of sound perception:

1. Accurately perceive the essence of conversations at any distance.

III In the field of alternative medicine.

1. Accurately diagnose at any distance.

2. Heal at any distance.

All the above-described abilities of Grabovoi G.P. have been established by independent competent expert commissions as a result of Grabovoi G.P.'s work within the framework of agreements on the use of his extrasensory abilities and by employees of VNPP "Progress". The results of the work of the psychic Grabovoi G.P. are drawn up in the form of documents with signatures of the members of the commissions, responsible officials of the management staff, and seals.

CERTIFICATE

This certificate witnesses that Mr. Grigorii Grabovoi is a man of extrasensory abilities and regardless of time he can for the Past, Present and Future:

I. In the field of clairvoyance:

1. Define precisely the appearance and the nature of the person not having preliminary information.
2. Define precisely the appearance and the nature of the person, knowing his name or surname.
3. Find disrepairs, defects, refusals of all equipment with the help of schemes, drawings, catalogues, things related to machinery and the number corresponding to the machinery.

II. In the field of sound perception:

1. Define the matter of any talks at any distance.

III. In the field of untraditional medicine:

1. Give a diagnosis at any distance.
2. Cure at any distance.

All above mentioned abilities of Mr. Grabovoi are established by the independent authoritative commission of experts as a result of Grabovoi's activity within the framework of the contract of using his extra sensitivity. The results of his work are legalized in documents signed by the experts and high functionary.

STATE SCIENTIFIC I INDUSTRIAL ENTERPRISE "PROGRESS"
(SSIE "PROGRESS")

CERTIFICATION

This is to certify that Mr. Grabovoi Grigori Petrovich worked at State Scientific Industrial Enterprise "Progress" from 10 June 1991 till 10 June 1993 under the contract with Civil Aviation Administration of Uzbekistan and then with National Airline "Uzbekistan Airways" of the Republic of Uzbekistan.

During this period Mr. Grabovoi using his extra sense abilities participating in the study of all organizational activities of SSIE "Progress" connected with the main problem - "Extending of the service life of aviation equipment". According to Mr. Sumbaev, Deputy Director General, this is the most complicated problem under the circumstances in Uzbekistan.

The Board of Directors of SSIE "Progress" suggested Mr. Grabovoi working at this problem using his extra sense information for making recommendations concerning the most important economic, financial, organizational and technical problems.

In the process of discussion problems and methods of their settlement Mr. Grabovoi made recommendations based on his extra sense information, using different factors influencing their settlement: psychological, economic, political and others. His recommendations were always precise and well grounded and were used for implementation.

Working as a consultant - extra sense Mr. Grabovoi made recommendations concerning different problems:

1. By the order of the Director of SSIE "Progress" he gave characteristics to business partners he never knew and never met before. At that moment they could be many kilometers away but his information was always correct. Using his ability Mr. Grabovoi can describe a person he never saw, he can name some of his habits, state of his health, nationality and other details.

2. Using his extra sense information Mr. Grabovoi formulates the causes and factors of the problems of the production process, makes recommendations for conducting business talks, advises how to act in extraordinary situations and makes many other recommendations.

Unnumbered (reverse) side sheet 308

3. Extra sense information of Mr. Grabovoi helps him to define mutually beneficial forms of cooperation with business partners, their financial state at that moment, in the past and future.

In the report to the National Airline there are results of Mr. Grabovoi's work as an extra sense in production activity of the enterprise.

Reliability and importance of his extra sense information is proven by the results of practical activity of the management of SSIE "Progress".

The results of extra sense work of Mr. Grabovoi in SSIE "Progress" are contracts and agreements signed with legal entities which helped to implement some stages of the program: "Extending of the service life of aviation technique." It is possible to make the conclusion that Mr. Grabovoi using his extra sense, ability, can work as a consultant-expert in different spheres of production activity.

The value of extra sense recommendations of Mr. Grabovoi is that he can foresee different events, their participants and factors influencing them not only in the present time but in the past and in the future.

AND COMPUTING SERVICES CENTER
NATIONAL AIRLINES REPUBLICS UZBEKISTAN
(CIWU NAK)

CERTIFICATE

Issued by Grabov to Grigory Petrovich that from 01/07/1993 to 09/01/1993 he worked as an expert psychic at the NAC Central Intelligence Agency .

During the period of work of Grigori Petrovich Grabovoi , the complete verifiability of his extrasensory information has been proven. Below , in the form of separate points, are given some typical examples of the use of extrasensory information by G.P. Grabovoi in the work of the CIV U NAC.

1. At the request of the Director of the Central Intelligence Agency of the National Aviation Committee on 06.05.1993 about the state of the software and hardware of the data transmission network (DTN) "Asia ", which are part of the automated system for the sale and reservation of airline tickets (AS) "Sirena-2", Grabovoi G.P. , within 5 minutes, without prior familiarization with the AS "Sirena-2", issued his extrasensory information about the state of the software and hardware of the DTN "Asia", which was fully confirmed by the materials of the examinations carried out by qualified specialists of the Tashkent Institute of Space Instrumentation in accordance with the order of the Central Intelligence Agency of the National Air Company of the Republic of Uzbekistan No. 18 of 19.05.1993. The materials were reviewed by the Deputy General Director of the National Air Company of the Republic of Uzbekistan (NAC RUZ) Simbaev S. M. , as a specialist in the AS "Sirena-2", gave a conclusion on the confirmation of the extrasensory information of Grabovoi G. P.

The implementation of extrasensory recommendations of Grabovoi G.P. allowed to organize activities for the refinement of software products of SPD "Asia" to the state of an industrial version, to develop the most effective for HAK RUZ strategy for the development of a regional data transmission network in modern conditions, with the registration of copyright for HAK RUZ, which will allow HAK RUZ to save hundreds of millions of rubles in the future .

2. In response to a request from the director of the Central Executive Committee of the National Academy of Sciences on 12.10.1992 regarding the legality of the actions of the district authority (khokimiyat), in terms of the requirement to register the building of the Central Executive Committee of the National Academy of Sciences with the khokimiyat and to obtain orders there for the placement of structural units and subsidiaries of the National Academy of Sciences of the Republic of Uzbekistan in the building of the Central Executive Committee of the National Academy of Sciences of the Republic of Uzbekistan, psychic Grabovoi G.P. used his clairvoyance and, without prior familiarization with any legal or other documentation , immediately issued the following information: "The

khokimiyat does not have the right to demand the registration with the Directorate for the Registration of Non-Residential Premises of a building belonging to state enterprises."

The next stage of Grabovoi G.P. , Using his extrasensory information, he examined the range of authorities that could provide a conclusion on the illegality of the actions of the khokimiyat and decided to receive a response confirming his information from the Committee for State Property Management and Privatization of the Republic of Uzbekistan.

An official letter No. 11/01-56 dated 12.01.1994 was received from the Committee for State Property Management and Privatization of the Republic of Uzbekistan.

Numbered side of sheet No. 310

year, where it is written that in accordance with the laws of the Republic of Uzbekistan, "the legality of registering state - owned objects , which include objects of the national airline, with the district khokimiyat has no legal force," which confirmed the information of Grabovoi G.P.

The management of the national airline sent a copy of this letter with explanations to all its divisions and structural units for management in matters of using state property, which allowed NIK to save hundreds of millions of rubles.

3. Grabovoi G.P. transmitted to the specialists of the CIV UNAC an extrasensory forecast of situations in which they could find themselves while performing production tasks, being both in Tashkent and outside of it . One of such examples: using his clairvoyance, Grabovoi G.P. , in the form of a prediction, absolutely accurately described the external conditions and furnishings of an apartment in the city of Moscow, in which the specialist will live during a business trip, right down to the color and shape of the wardrobe . Passengers who will be next to him on planes to Moscow and back are accurately described . Moreover, the specialist on a business trip did not even approximately know in advance where he would live in Moscow, and the description of the passenger who would be next to him on the plane on the return trip was given by Grabovoi G.P. before the passenger bought a ticket for this plane, which was found out from the passenger herself on the return trip .

The behavior of the specialists of the company to which the specialist of the TsIV U NAK was sent was also fully confirmed . Information and recommendations of a similar nature were given to the director of the TsIV U NAK Morozkina N.R., Head of the Technical Support Department CIV U NAK Ratiashvili S.K., specialists from the management staff of CIV U NAK. All predictions of Grabovoi G.P. have been confirmed in practice.

4. During trips in the car of the Central Intelligence Agency of the National Aviation Company, psychic Grabovoi G.P., in cases of malfunctions or failures, provided information about the causes of the malfunctions, which was confirmed by the driver immediately, during a preventive inspection or repair of the car.

Psychic Grab o v o i G. P. accurately diagnosed fax machines, computers, and also gave predictions of failures of the "Sirena-2" AS , indicating the date of failures, which were fully confirmed.

5. Psychic Grabovoi G.P. , at the request of the Directorate of the Central Intelligence Directorate of the National Anti-Corruption Campaign, having only a list of employee names, issued characteristics for individual employees. The characteristics of specialists issued by Grabovoi G.P. based only on the names provided to him very accurately reflect the character traits of each specialist and his ability to perform a certain type of work. Based on the characteristics, recommendations and forecasts issued by Grabovoi G.P. , the newly created structure of the Central Intelligence Directorate of the National Anti-Corruption Campaign was formed, the management staff of the units of the Central Intelligence Directorate of the National Anti-Corruption Campaign was selected and placed. All characteristics and forecasts have been confirmed in practice.

Numbered side of sheet No. 311

6. Repeatedly, Grabovoi G.P. , in advance, in the form of a presentation of the essence, brought to the attention of manuals TsIVU NAK the content of negotiations and business meetings, conversations affecting the interests of TsIVU NAK, which took place at a distance from him and were conducted in different languages, including those that he does not speak . Subsequently, this information was documented by eyewitnesses and participants in these events.

7. Psychic Grabovoi G.P. performed an energetic correction of future events, which in an obvious case led to saving the life of an employee of the Center for Advanced Medical Studies of the National Academy of Sciences. Information and energetic work of Grabovoi G.P. kept this employee from getting into his service car, for which Grabovoi G.P. made a prediction about a collision with a pole. The prediction of Grabovoi G.P. came true - the car collided with a pole at speed, but the energetic correction of the event performed by Grabovoi G.P. saved the life of the employee.

In other cases, the psychic Grabovoi G.P. changed events that had already occurred, which according to preliminary logical data were impossible to change to the opposite, which also clearly confirms the ability of Grabovoi G.P. to consciously and within precisely defined limits influence future events, including those that contain state governance structures.

Based on the above, taking into account that typical examples similar to those given above are sufficient for any statistical analysis, qualitatively reflecting also the fact that there was not a single case of non-confirmation of extrasensory information from Grabovoi G.P. when extrasensory information was received from him daily, the only possible evidence is the following:

The unique gift of Grabovoi G.P. lies in the ability of clairvoyance, that is, seeing all the details of events occurring both at the moment of communication with him by subscribers, and at any time, both in the past and in the future. Clairvoyance allows him to give out his information, accurately and correctly describing the essence of the issues under consideration, and, if necessary, describing with deep detail any aspects or elements of the events under consideration, and clearly formulate recommendations for making optimal decisions for the implementation of the tasks set in the future.

This certificate certifies that Grabovoi G.P. is capable of:

1. By means of extrasensory perception of information about the interaction of people, software and technical means, to detect the causes of disruptions in the normal functioning of the regional data transmission network "Asia", to predict the occurrence of abnormal situations in its work.

Possessing the gift of foresight, to determine prospects and form the optimal direction for the development of the entire information system of the NAC of the Republic of Uzbekistan, taking into account the political and economic aspects of the problem,

Numbered side of sheet No. 312

special importance to the choice of a, training and placement of the most capable managers and specialists in key areas .

2 . To carry out an extrasensory, almost instantaneous assessment of the legality of decisions of executive authorities , for their compliance with the legislation currently in force , without the use of any regulatory documents .

3. Using the gift of clairvoyance, predict, upon request from the subscriber, the location of future events with details of the characteristic features of objects located there .

If necessary, describe the distinctive portrait features of participants in future events, whom neither he nor the subscriber have ever seen before.

4. Carry out extrasensory prediction of malfunctions and failures of various equipment (faxes, cars, technical means of data transmission networks, computers , etc.).

5. When selecting personnel, extrasensorically, based on surnames, issue precise characteristics to specialists and comprehensive recommendations on the possibility of effectively using their abilities to perform a certain type of work.

6. Extrasensory, at any distance from the place of the conversation, convey its main content , regardless of the language in which it is conducted or occurred in the past.

7. Carry out energetic correction of future events consciously and within precisely defined limits, within the framework of laws defined by him.

This certificate certifies that the special value of the extrasensory recommendations of Grabovoi G.P. is that in their formation a multifactorial analysis of the causes that influenced the course of events was used, both at the current moment in time and at any point in the time vector, which is currently inaccessible to traditional methods and means of objective diagnostics and deterministic logical analysis.

about the work of psychic Grabovoi G.P.
by issuance extrasensory information for reasons am
disorders Balakireva Ekaterina born in 1991

Initial conditions:

In September 1992, Deputy Director of the All-Russian Research and Production Enterprise "Progress" B. Alakireva E.D. , on the advice of Morozkina N.R. turned to a psychic Grabovoi asked G.P. to help identify the cause of her daughter Ekaterina's sleep disturbance . Ekaterina systematically showed increased excitability in the evenings and could not fall asleep for up to 24 hours, and sometimes longer , practically did not allow Balakireva E.D. to do housework.

Based on the results of the extrasensory viewing of the situation, Grabovoi G.P. described the energetic relationship of the family of Balakireva E.D. with the surrounding people and gave more specific information about the people who negatively influenced the child's condition.

Using the abilities of clairvoyance , Grabovoi G.P. , immediately, during the conversation, described the distinctive portrait features of these people , whom he had never seen before, and the characteristic signs of their behavior when meeting with the child of Balakireva E.D.

According to information from Grabovoi G.P .: " about an elderly stooped woman, very softly and persistently striving to communicate with the child" and other signs Balakireva E.D. recognized a neighbor who showed " special love and attention" to the child.

Based on the information about the second "elderly woman with a hooked nose" and other signs, Balakireva E. D. recognized another

neighbor who regularly , almost daily, comes to the Balakirevs' apartment, brings gifts to the child, tries to communicate with the child and, if possible, physically caress or kiss her. At the end of the conversation, Grabovoi G. P. gave recommendations on the behavior of Balakireva E. D. , her mother and the child in the house and in the yard where they walked with the child, in order to exclude the negative influence of the people he described on the child.

And the analysis of extrasensory information of Grabovoi G.P. at the family council with the mother showed that all the given facts about people who are interconnected with the family of Balakireva E.D. and her close relatives were fully confirmed. Following the recommendations of Grabovoi G.P. by Balakireva E.D. allowed to establish normal sleep of the child.

All of the above is confirmed by personal signed by Balakireva E. D.

CERTIFICATE

I, Balakireva Elena Dmitrievna ,
Passport series XI V N 632428, issued by the Kuibyshevsky
Department of Internal Affairs RIC A. Tashkent
And address: Tashkent, Sputnik apt. 4, bldg . 50, apt. 217

I certify that while at the Pulkovo airport in St. Petersburg on December 28, 1993, Grabovoi G. P. accurately described the appearance of a person I had known many years ago and accurately defined his attitude toward me. Grabovoi G. P. had no information about this person before the description and could not have known this person's attitude toward me, since only I knew about it and I never spoke with Grabovoi G. P. about this person.

All of the above proves that Grabovoi G.P. has clairvoyance, which includes in this case the ability to accurately describe the appearance and feelings of people with whom a person was familiar in the past.

certify this certificate with my personal signature .

Situation information

which arose in the presence of the operator Grabovoi G.P.

At the crossroads , near the hotel " Russia " of Tashkent stalled and did not start with Mo with Kvich-4 1 2.

Reverse gear on the descent of the car with connection to the speed did not give results. For about 10 minutes the driver took steps to start the car, but it started only after the operator Grabovoi G.P. took decision to continue driving (started within 1 second on a horizontal surface, from the ignition key). Until the decision was made to continue the trip , operator Grabovoi G.P. had to remain in the area of the intersection to hand over the document to the "Sirena-2" department, the building of which is located near the intersection .

After such a need was removed and the operator Grabovoi G.P. decided to drive further, the car started within one second on level ground from the ignition key and the driver drove the car in the right direction and safely drove to the final point of the route. In the case described above , the interaction of the fields of the operator Grabovoi G.P. and the field of the car was clearly observed depending on the goal of the operator.

In the car with the official car of the NAC Moskvich -412 were the driver Yelansky I. , the director of the NAC Morozkina N.R. and operator Grabovoi G.P.

02.01.1994

PROTOCOL

Tashkent " 0 2 " 0 1 1994

experimental tests of the possibility

Grigory Petrovich Grabovoi to implement

energy correction of the mechanisms and systems of the car

The expert committee consists of:
chairman

Chief Engineer of the Information and Computing Services Center
of the National Airline of the Republic of Uzbekistan Ratiashvili S.K.
and members of the commission:

Ermoolenko G.G., driver of the official car of the information and
computing services center of the National Airline of the Republic of
Uzbekistan, brand RAF No. 34-65 TNP.

Ermoolenko V.G., driver.

conducted a test of the ability of psychic Grigori Petrovich Grabovoi
to carry out:

Energy correction of the state of the vehicle's mechanisms and fuel
consumption that does not affect the performance and physical
condition of the vehicle's systems .

SECTION 1. Results of the experimental purity check

The psychic Grabovoi G.P. carried out the correction of the car's
fuel system in such a way that the almost tripled fuel consumption
did not affect the performance of the car's systems, but did not
increase its power.

Psychic Grabovoi G.P. did not use any traditional methods or
devices to interfere with the mechanism of a car before starting his
work.

SECTION 2. Data and results of the experiment

Since November 1993, Ermoolenko G.G. began to complain about a

sharp increase in fuel consumption, almost 2-2.5 times more than the norm. The driver Ermoolenko has 9 years of experience, consulted with experienced drivers and repairmen, together with his brother Ermoolenko V.G. , who has about 25 YEARS of experience working with cars of this brand , disassembled the devices, adjusted the carburetor, valves and ignition, but received practically no results. The problem was removed only after a discussion of this experiment between Grabovoi G.P. , director of the center of information and computing services Morozkina N. R. and driver Ermoolenko G. G. and Grabovoi G. P. conducting energy correction of the car systems to restore its energy potential to

Unnumbered (reverse) side of sheet No. 315

Sheet No. 2 of protocol No.

original condition. Since then, the defect of excessive fuel consumption has not recurred on this vehicle.

The purpose of the work being carried out is to demonstrate the possibility of extrasensory energy correction of the systems and mechanism of a car.

As a result of examining the data, the commission concluded:

-From eyewitness accounts and the facts examined it follows that the psychic Grabovoi G.P. really does carry out energy correction of the state of the car's systems and mechanisms.

The Commission recommends:

-to involve the psychic Grigori Petrovich Grabovoi to carry out such work in the future, to prevent malfunctions that threaten the safety of car passengers.

Chairman of the Commission

Ratiashvili S.K.

experiments on energy correction of the state mechanisms and systems of the official vehicle of the Center information and computing services of the National airlines, brand RAF-2201 No. 34-65 TNP in 1994.

We, the undersigned, the performer of the works, psychic Grabovoi G.P. and the director of the center of information and computing services Morozkina N. R. , driver Ermoolenko G. G. and Ermoolenko V. G. drew up this report stating that Grabovoi G. P. performed the following extrasensory work in 1994 :

Official car No. 34-65 TNP brand RAF was received by the information and computing services center in August 1993, it is one of ten similar official cars purchased for special purposes in Riga. The car was tested in production conditions in Tashkent. In February 1994, a knock appeared in the cardan shaft of the car RAF No. 34-65 TNP. The driver disassembled the cardan shaft and found that the crosspiece of the cardan shaft was dry, without any traces of lubrication, as a result of which it became unusable and had to be replaced with a new one. The assumption of the driver Ermoolenko G. G. about the factory defect of the lack of lubrication in the crosspiece was not confirmed by experienced motorists. In their opinion, in this case the car would not have traveled more than 1000 km without knocking. At the time the defect appeared, the car traveled more than 9000 km, in addition, it was used on mountain roads. Thus, the disappearance of the lubricant could not be explained by logical reasons. When analyzing the situation, Grabovoi G.P. explained to Morozkina N.R. and Ermoolenko G.G. that he conducted an experiment with the lubricant on the crosspiece, evaporating it with energy correction, to correct the events that could have happened to Ermoolenko G.G. , since he did not follow the recommendations of Grabovoi G.P. in terms of studying the rules of the road.

Conclusions: This experiment confirmed that Grabovoi G.P. has the ability to carry out energetic correction of the state of viscous materials (lubricant) before transferring them to other states, allowing them to be removed from their local, hermetically sealed location.

ACT #19

about the works performed by Grigori Petrovich Grabovoi experiments on energy correction of the state mechanisms and systems of the official vehicle of the Center information and computing services of the National airlines, brands RAF-2201 No. 34-65 TNP and other objects in 1993-1994 -.

We, the undersigned, the performer of the works, psychic Grabovoi G.P. and the director of the center of information and computing services Morozkina N. R. and driver Ermoolenko G. G. drew up this report stating that Grabovoi G. P. performed the following extrasensory work in 1993-1994 :

1) Official car No. 34-65 TNP brand RAF was received by the center of information and computing services in August 1993, this is one of ten similar official cars purchased for official purposes in Riga. The car was tested in production conditions in Tashkent. Working as an expert psychic and often using this car, Grabovoi G.P. in a conversation with the driver Ermoolenko G.G. suggested to carry out an energy correction of the car taking into account the peculiarities of the driver's energy in order to create comfortable conditions for the operation and maintenance of the car. Having doubted, the driver refused and then Grabovoi G.P. carried out work on the energy correction of the car mechanisms to confirm the real possibility of energy correction of the state of complex mechanical systems. As a result, since November 1993, Ermoolenko G.G. began to complain about a sharp excess of fuel consumption, almost 2-2.5 times more than the norm. Driver Ermoolenko has 9 years of experience, consulted with experienced drivers and repairmen, together with his brother Ermoolenko V.G., who has about 25 years of experience working with cars of this brand, disassembled the devices, adjusted the carburetor, valves and ignition, but received practically no results. The problem was removed only after discussing this experiment between Grabovoi G.P. , director of the information and computing services center Morozkina N.R. and driver Ermoolenko G.G. and

conducting an energy correction of the car systems to restore its energy potential to its original state. From that moment on, the defect of excessive fuel consumption on this car was not repeated.

Conclusions: This experiment confirmed the possibility of energy correction of the state of the vehicle mechanisms and fuel consumption through channels unknown to the average person, without affecting the performance and physical condition of the vehicle systems.

2) In February 1994, a knock appeared in the driveshaft of the RAF #34-65 TNP vehicle . The driver disassembled the driveshaft and discovered that the driveshaft crosspiece was dry, without any traces of lubrication, as a result of which it became unusable and had to be replaced with a new one. The assumption of the driver Ermoolenko G.G. about the factory defect of the lack of lubrication in the crosspiece was not confirmed by experienced motorists. In their opinion, in this case, the car would have traveled no more than 1,000 km without knocking. At the time the defect appeared, the car had traveled more than 9,000 km, in addition, it was used on mountain roads. Thus, the disappearance of lubrication could not be explained by logical reasons. When analyzing the situation, Grabovoi G.P. explained to Morozkina N.R. and Ermoolenko G.G. that he conducted an experiment with the lubricant on the crosspiece, evaporating it with energy correction, to correct the events that could happen with

Unnumbered (reverse) side of sheet No. 317

Ermoolenko G.G., because he did not follow the recommendations of Grabovoi G.P. regarding studying the rules of the road.

Conclusions: This experiment confirmed that Grabovoi G.P. has the ability to carry out energetic correction of the state of viscous materials (lubricant) before transferring them to other states, allowing them to be removed from their local, hermetically sealed location.

3) In November 1994, during Grabovoi's vacation, G. P. Morozkina N. R. and Ermoolenko G. G. on the weekend in the Nanai gorge in Ermoolenko G. G.'s personal car. The following conversation took place between Ermoolenko G. G. and Grabovoi G. P.:

Ermoolenko : " We won't be able to have a good rest, because the weather will obviously soon get worse." (The weather was starting to

get worse, a strong wind was blowing and thick clouds were approaching.)

Grabovoi : " Don't be afraid, I'll disperse the clouds now and the weather will be good for the entire period of our stay at the holiday home."

Within half an hour the sky cleared and the weather was sunny and calm for two days of our stay at the holiday home. As we were preparing to leave, the wind blew, clouds appeared, and when we got on the road it started to rain.

Conclusions: The participants of this trip believe that the weather during the vacation was very warm , sunny and pleasant, thanks to the energetic correction of the direction of air flows carried out by Grabovoi G.P.

Director of the center computing services Morozkina N.R.

CERTIFICATE

This certificate, issued by the center of information and computing services of the National Aviation Company of the Republic of Uzbekistan, certifies that Grabovoi Grigori Petrovich, born on November 14, 1963 in the village of Kirovsky, Kirovsky district, Chimkent region (having a birth certificate series II-OG No. 463794), can indeed extrasensorily perform:

- 1) Energy correction of the vehicle's mechanisms and systems.
- 2) Energy correction of the state of materials.
- 3) Energy correction of the directions of air flows that affect the weather conditions.

CERTIFICATE

about the extrasensory work of Grigori Petrovich Grabovoi

Place of filling out the certificate: Moscow region, Khimki

Date: 1994.02.04 Time: 13-30

I, Aksenova Elena Vladimirovna

date of birth: 11.09.38

Name of the company Position and office phone numbers: working
JSC CNIIME, senior researcher

name of document, series, number, by whom and when the
document was issued: I have an identity card, passport XXII-MЮ,
No. 599206, issued by the 111th dep. mi. of Moscow on 21.11.79.

I certify that Grigori Petrovich Grabovoi, born November 14, 1963
(holding passport series III-OG No. 586058, issued on February 1,
1980) received me on 1994.08.17 on the issue of correcting the
future of my husband, Valentin Ivanovich Aksyonov. After the
reception, from 1994 on 08.17, Grigori Grabovoi conducted
extrasensory work in the direction of returning my husband Valentin
Ivanovich Aksyonov home.

My husband left for the Krasnoyarsk Territory, the city of Abakan,
on conviction, leaving his family. His conviction was that the city of
Abakan is the holiest place on Earth. A community should be created
there and lived in it. This was called for by Vissarion, who declared
himself the second coming of Christ and under whose influence my
husband fell. He called on all believers in him to leave their
apartments, jobs, families and go create a community. After turning
to Grigory Petrovich, my husband's character began to change

dramatically and his attitude towards Vissarion's faith became critical. Good letters began to come from him often. He wrote that he missed me very much and wanted to return home. In Abakan, he found neither work nor housing. He asked permission to return. He returned, became attentive, caring. Regarding Vissarion (according to my husband), -he was forbidden to preach. I had no hope for my husband's return. I am very grateful to Grigory Petrovich Grabovoi. He gave me back my husband, my daughter -my father, my granddaughter my grandfather. Many thanks to him.

the psychic expert Grabov and G.P.

from the head of the SVT TO department, S.K. Ratiashvili

The information received by extrasensory perception, transmitted to me, about the danger threatening me coming from the driver, was fully confirmed. Thanks to extrasensory influence it was possible to avoid my presence in the car during the accident, thus the danger threatening my life was averted . I ask you to select a driver for the car "Moskvich " with the help of extrasensory information .

document was issued: passport with an identity card, series 43 No.
5405128, issued by Department of Internal Affairs 428, 02.04.1994.

I contacted psychic Grabovoi G.P. (holding passport series III-OG N 586058, issued on 01.02.1980, certificates series A N 018465 and series A N 018466 for engaging in psychic activity) with the following purpose: while in my room at the Inter-Continental Hotel, Manila, Republic of the Philippines, on 12.12.1994, I discovered problems with my TV (the TV did not respond to commands from the remote control, showing one program, it was impossible to change the channel, change the brightness, etc.) and contacted Grabovoi G.P., who was in another room, in order to tell him about what had happened, without, however, directly asking him to repair the TV. Having complained about the problems, I returned to my room, and the floor duty officer came there to find out the cause of the problem with the TV in my room. However, by this time the TV was already in normal working order and we did not notice any problems in its operation .

On December 13, 1994, while staying at the Inter-Continental Hotel, Manila, Republic of the Philippines, I once again approached Grabovoi G. P. with the following request: among the gifts that we had brought with us to the Philippines (as souvenirs), I still had a bottle of vodka that I did not want to take back. Knowing that on that day Grabovoi G. P. would meet with the staff of the Russian embassy in the Philippines, I suggested to Grabovoi G. P. that I give the bottle that I had left to the embassy staff. However, Grabovoi G. P. did not approve of my idea. By suggesting that he take and hand over the bottle (which was in my room at the time of our conversation with

Grabovoi G. P.), I mentally wanted to somehow get rid of it. After our conversation, I forgot about the bottle and remembered it only the next day when I was packing my things, preparing to leave for the airport. I was unable to find the bottle in the room (it was always on my table), and after arriving in Moscow it was not among my things. Considering the class of the hotel we stayed in Manila (5 stars, Inter-Continental), it is impossible to assume that the bottle was stolen by someone from the hotel staff.

state: citizens of Uzbekistan,
Date of birth: 1963 July 17

Residential address and home telephone number: resident of
Tashkent city Chilanzar bldg. 1, house 55, apt. 14

I contacted the psychic Grabovoi G.P. (who has a passport series III-OG N 586058, issued on 01.02.1980, certificates series A N 018465 and series A N 018466 for engaging in extrasensory activities), with the purpose of: correcting events on the application of labor. After contacting only through my clairvoyance without any information from me and before contacting, a person unfamiliar with me recommended contacting Yuri and Andrey on the application of labor.

Indeed, at present I have been deprived of my driver's license for six months and have lost my job as a driver, and Yuri, my former classmate, offers me a job on a partnership basis in the field of production activities, and Andrey is also a person with whom one can work according to Andrey's character structure.

I contacted the psychic Grabovoi G.P. (who has a passport series III-OG N 586058, issued on 01.02.1980, certificates series A N 018465 and series A N 018466 for engaging in extrasensory activities), with the purpose of: correcting future events.

After the extrasensory work carried out by Grabovoi G.P., he recommended:

1. Find contact with Andrey
2. Pay attention to the tall blonde named Alla.

When giving recommendations, he used only his clairvoyance, because before my meeting with him he did not know me or my friends - Andrey and Alla.

Indeed, contact with Andrey, who helped me with business, was interrupted; Alla is indeed a tall blonde and works with me in the khokimiyat office.

1) held a reception on 11.12.1995;

2) during the reception of G.P. Grabovoi, through his clairvoyance,
without having preliminary information and at the first meeting on
this issue, he described a person with whom I am actually
acquainted;

3) G. P. Grabovoi recommended paying attention to a tall elderly
woman named Lyudmila. Indeed, I have a friend, a tall woman
named Lyudmila. Besides, I was thinking about her when I went to
the appointment today. G. P. Grabovoi did not know about Lyudmila
beforehand, but he was able to determine her name and appearance;

4) G. P. Grabovoi described through clairvoyance that at the
entrance to my kitchen on the right there is a white plastic container
with components of baking soda, which has increased radioactivity.
Indeed, in the kitchen on the right, on the top shelf there is a white
plastic box, under which there is a jar of baking soda. G. P. Grabovoi
said that this object has a damaging effect on the heart. Indeed, in

1993 a more precise diagnosis was made, indicating that I have a necrotic area of heart tissue. The plastic box was in the kitchen for ≈1 year or more.

In connection with the fact that I contacted Grigory Petrovich
Grabovoi, born on November 14, 1963 in the village of Kirovsky,
Kirovsky district, Chimkent region, Kazakh SSR, having a birth
certificate series II-OG No. 463794,

On January 3, 1995, in Tashkent, Uzbekistan, at a meeting at
Grigori Petrovich Grabovoi's family home, I asked him a question,
received an answer and declare that Grigori Petrovich Grabovoi really
simulated a situation in which the breakdown of the steering control
of my car VAZ-21011 number 00-54 TNU occurred at the moment of
straight-line movement from the parking lot near the house to the
garage, not earlier and not later. Otherwise, an accident would have
occurred during movement due to the disconnection of the steering
kolonk shaft and the worm gear shaft (spline and bolt connection).
The breakdown occurred immediately after the meeting at Grigori
Petrovich's home.

I, Sergey Petrovich Kuzionov, a researcher of anomalous
phenomena with 16 years of experience (St. Petersburg) and a
former employee of the American center for the study and treatment
of injuries after contacts with anomalous phenomena (headed by Dr.
Rimma Leibow and General Stabelbaich), certify the fact of
clairvoyance and impact on equipment (car) in time (the moment of
breakdown coincides with the time of safe straight-line movement -of
the entrance to the garage) by Grigori Petrovich Grabovoi.

Please certify my application on the basis of documents proving my
identity and on the basis of the above evidence.

On the day I met Grigori Petrovich Grabovoi, January 3, 1995, in Tashkent, -the capital of Uzbekistan, I was present at a conversation where Grigori Petrovich talked about his trip to the Philippines and his understanding of the mechanism of its influence. My friend -Pukemov Alexander Timofeevich, editor-in-chief of the newspaper

"Tashkentskaya Pravda", was present, who invited me to the meeting and who knew about my interest in phenomena and my many years of research into UFOs, parapsychology and poltergeists. During the conversation, I asked Grigori Petrovich a question that was occupying me at that time in my life -: "Does the future definitely exist or can it be modeled?" Grigori Petrovich immediately seemed to notice that he had already betrayed me. It was said casually, and I did not pay much attention to the words.

After the meeting I returned in a VAZ-21011 with the number 00-54 TNU to the house of relatives, where I stayed during my stay in Tashkent. It was after 24 hours, practically at night.

In the morning I had to go to a business meeting in the same VAZ-21011. Driving out of the garage and then turning onto the road, I was surprised that when I turned the steering wheel, the wheels did not turn. Realizing that there was a breakdown, I neglected the meeting, called on the phone and rescheduled the meeting for a later hour, I began to find out the cause of the breakdown. It turned out that the splines were made at the junction of the steering shaft and the worm gear shaft, and the bolt at the junction was cut in 2 planes, which the owner of the car, my father, Kuznetsov Petr Vasilyevich,

(The above data of this sheet are entered from the first sheet of the certificate)

installed at the service station to eliminate play. I inserted another bolt of a similar cross-section and tightened the nut. I went to the service station to see my friend, the chief engineer of the service station, Mikhail Naumovich Kostrov, who was surprised, saying that

usually such safety bolts “do not shear off”, especially in two planes (at the bolt head and the nut area).

The correction of the time and circumstances of the conversation the day before and the phrase about me by Grigori Petrovich Grabovoi about changing my future, the time (the very moment) of the breakdown and its nature still seems surprising to me . That is, if the moment of the breakdown had been a little earlier or later than entering the parking lot in front of the garage, in the best case the car and I would have ended up on the side of the road.

In addition, I can report that after this, several times over the course of six months, in the presence of other witnesses, phenomena of an anomalous nature were observed.

For example, the light was on in the apartment and the fax machine was working with the plug unscrewed, noise effects in an empty room (it was clearly audible that someone was walking and clicking in the apartment, etc.

I can say that I have been researching anomalous phenomena for a long time, since 1980. I am a member of the Commission for the Study of Anomalous Phenomena of the Geographical Society of the Russian Academy of Sciences, was an employee of the American Center for the Study of A.Ya. and the Treatment of Anomalous Injuries (New York, USA), organized the work and created the corporation “HOLY STONE” in New York

On June 28, 1996, in Moscow, in the presence of witnesses and Grigori Petrovich Grabovoi, a video recording was made of the above for the UN archive.

A video recording of the meeting on January 3, 1995 in Tashkent was given along with this document to Grigory Petrovich Grabovoi.

Address and telephone numbers: Russia, St. Petersburg, V. O., st. Kartashikhina, 6, apt. 8.

STATEMENT

on establishing the fact of recognition of Grigori Petrovich Grabovoi healer and clairvoyant

Date and place of birth: I was born on 1953.04.26 in Tashkent, Uzbekistan

name of document, series, number, by whom and when the document was issued: I have an identity card passport 21 No. 0504547 issued on 20.03.1992.

Name of the company, position and phone number: I work as an Expert of the St. Petersburg Diocese of the Trinity Izmailovsky Regiment, 7.

In connection with the fact that I contacted Grigory Petrovich Grabovoi, born on November 14, 1963 in the village of Kirovsky, Kirovsky district, Chimkent region, Kazakh SSR, having a birth certificate series II-OG No. 463794,

reason for contacting: July 9, 1996 in Moscow and had a conversation with Grigory Petrovich on an organizational topic.

I declare that Grigori Petrovich Grabovoi really, apparently, contactlessly at a great distance indirectly influenced the fuel level sensor of my friend Sergei Stepanovich Vasilenko's VAZ-2101 car (the sensor suddenly started working after a breakdown several months before the incident) and the switching on of the lamp in the chandelier, while pronouncing the name of Grigori Grabovoi as the reason for repairing the fuel sensor (the lamp had not worked for a long time and turned on in the presence of 5 people, it still works).

I, Kuzionov Sergey Petrovich,

Date and place of birth: Born April 26, 1953 in Tashkent, Uzbekistan
state: citizen of Russia

Place of residence and home telephone number: I live in St.

Petersburg, Vasilievsky Island, Kartashikhina St., 6, apt. 8, house.
name of document, series, number, by whom and when the
document was issued: I have an identity card: passport 21 No.
0504547 issued on 20.03.1992 by the Ministry of Foreign Affairs of
the Russian Federation (foreign passport)

Name of the company, position and office phone numbers: I work as
an expert consultant of the St. Petersburg Diocese in the Cathedral
of the Holy Life-Giving Trinity, Izmailovsky Regiment, 7.

On July 9, 1996, my old friend -from Moscow, Sergei Stepanovich
Vasilenko, who lives at the address -Moscow, Leninsky Prospekt 136,
apt. 45, gave me a ride in his VAZ-2101 car in Moscow at about 3
o'clock in the afternoon Moscow time to the meeting place with
Grigory Petrovich Grabovoi.

The meeting was arranged by the presidential administration;
Sergei Stepanovich Vasilenko was left waiting in the car, in which the
fuel gauge had not worked for a long time (Sergei Stepanovich had
long ago started a notebook recording dates and the amount of
gasoline filled).

About 50 minutes after the meeting, I got into the car and we
drove to a planned meeting with a business partner on the outskirts
of Moscow.

With surprise, at the moment of the start of the movement, S. S.
Vasilenko noted that the fuel level sensor started working. The sensor
worked until the moment when another person got into the car about
40 minutes later.

After this the sensor still does not work

In the evening, in the circle of Sergei Stepanovich Vasilenko's
family, at the moment when he was telling about this to everyone
sitting at the table for dinner in the center of the room under the
chandelier, Sergei Stepanovich expressed the idea that this could be
connected with the personality of Grigori Grabovoi, one of the lamps
of the chandelier turned on by itself and burned the rest of the time.

According to S.S. Vasilenko, the lamp is still "burning".

An unusual correlation -meeting with the amazing

Last name, first name, patronymic of the person completing the certificate: Kazarenko Anatoly Mitrofanovich

I declare that I was an eyewitness to the following extrasensory experiments of Grigori Petrovich Grabovoi:

I have long been interested in forecasting honey collections in the conditions of Central Asia, but science does not yet allow this to be done with complete certainty, and experienced beekeepers each use their own method or their intuition.

Having met Grigory Petrovich Grabovoi in absentia, I asked him to use his unique abilities in forecasting the honey harvest for May-June 1996. In the letter, I indicated to him three regions located hundreds of kilometers apart:

- 1) Abay district of Chimkent region
- 2) foothills of Zaamin
- 3) Chardara, Kara-Kum sand zone

An immediate and categorically unambiguous answer was received: -Chardara, sand zone.

The spring was cold, dry and did not bode well for beekeepers. I fully relied on Grigori Petrovich's forecast, although I did not want to go to this distance and heat. But I went and was rewarded with an abundant bribe of two honey plants following one after another. The amount of honey collected in one month corresponded to the planned amount for the season. My bribe was three times more than that of my colleagues who went to the foothills, where I wanted to go before receiving Grigori Petrovich Grabovoi's recommendation on choosing a camp site. I believe that the use of Grigori Petrovich Grabovoi's abilities in the development of beekeeping can contribute to the improvement of the ecology of our planet, due to the wider development and distribution of beekeeping farms.

Time: 12-00

Surname, name, patronymic of the person completing the
certificate: Ermoolenko Grigory Grigorievich

I declare that I was an eyewitness to the following extrasensory

works of Grigori Petrovich Grabovoi:

Since November 1993, I, working as a driver in the NAC Central Control Center on a RAF car No. 35-65 TNP, was concerned about a sharp overconsumption of fuel, almost 2-2.5 times more than the norm. This happened after I refused the offer of Grabovoi G.P. to carry out an energy correction of the car taking into account my energy. I refused, not understanding the essence of his offer. My experience as a driver is 9 years. I consulted with experienced drivers and repairmen to find out the reason for the overconsumption. Together with my brother Ermoolenko V.G., who has about 25 years of experience working with cars of this brand, we disassembled the devices, adjusted the carburetor, valves and ignition, but received practically no results. The problem was removed only after discussing this issue with the psychic Grabovoi G.P. Grabovoi G.P. offered and carried out an energy correction of the car systems to restore them to their original state. From that moment on, the defect of excessive fuel consumption on this car never happened again, and for me this incident served as a lesson in understanding the issues of the relationship between the world of energy and physical reality.

In February 1994, a knock appeared in the cardan shaft of the RAF #34-65 TNP vehicle. I disassembled the cardan shaft and found that the cardan shaft crosspiece was dry, without any traces of lubrication, as a result of which it became unusable and had to be replaced with a new one. My assumption about the factory defect of the lack of lubrication in the crosspiece was not confirmed by experienced motorists. In their opinion, in this case, the car would not have traveled more than 1,000 km without knocking. At the time the defect appeared, the car had traveled more than 9,000 km, and was also used on mountain roads. Thus, the disappearance of lubrication could not be explained by logical reasons. When analyzing the situation, Grabovoi G.P. explained to Morozkina N.R. and me that he conducted an experiment with the lubricant on the crosspiece, evaporating it with energy correction, to correct the events that could happen to me, since I did not follow the recommendations of Grabovoi G.P. in terms of studying the rules of the road.

In November 1994, Grabovoi G.P., Morozkina N.R., three children and I went to the Nanai Gorge for the weekend in my personal car. The following conversation took place between me and Grabovoi G.P.:

Me: We won't be able to have a good rest, because the weather will obviously get worse soon." (The weather was starting to get worse, a strong wind was blowing and thick clouds were approaching.)

Grabovoi: "Don't be afraid, I'll disperse the clouds now and the weather will be good for the entire period of our stay at the holiday home."

Within half an hour the sky cleared up and the weather was sunny and calm for two days of our stay at the holiday home. At the moment of our preparation for departure the wind blew, clouds appeared, and when we drove out onto the road it started to rain. I believe that the weather during the holiday was very warm, sunny and pleasant, thanks to the energetic correction of the air flow direction carried out by Grabovoi G.P.

STATEMENT

on establishing the fact of recognition of Grigori Petrovich Grabovoi
healer and clairvoyant

Place of birth: I was born 1958/02/17/ Gorokhovka village, Voronezh
region.

Birth certificate number and series: No. 038242 I-HP

name of document, series, number, by whom and when the
document was issued: I have an identity card, passport XIX-HK No.
655676, issued by the 1st Department of Internal Affairs of the city
of Mytishchi, Moscow Region, on March 25, 1981.

In connection with the fact that I contacted Grigory Petrovich

Grabovoi, born on November 14, 1963 in the village of Kirovsky, Kirovsky district, Chimkent region, Kazakh SSR, holding a birth certificate series II-OG No. 463794, passport series III-OG No. 586058, issued on February 1, 1980,

Reason for contacting: 10/3/96, Moscow, oncological disease

I declare that Grigori Petrovich Grabovoi is indeed a healer and clairvoyant

3. On 10.96 I had my first appointment with G.P. Grabovoi, and in the evening of that day and every evening from 10 to 11 p.m. I began to feel an effect of extraordinary power on my body.

I wrote down all my unusual sensations, namely: heaviness and numbness of the arms and legs, strong pulsation in the solar plexus, sharp piercing pain in the feet and fingers and palms, strong pressure on the head, vibration of the liver, light touch to the thyroid gland, strong burning in the left breast, pain inside the chest, as well as many other sensations in the diary. On 10/21/96 I had a second appointment with G. P. Grabovoi, where he asked me if I had had the thought of wanting to lose weight about 14 days ago. I remembered that two weeks ago, i.e. on 10/7/96, when I tried on trousers and they turned out to be a little small, the thought came to me that I needed to lose weight. I returned to this thought several times during the day, but did not talk about it with anyone. I thought that on 10/7/96 G.P. Grabovoi saw my thought about the desire to lose weight. My health is quickly improving, I feel much better.

Please certify my application on the basis of documents proving my identity and on the basis of the above evidence.

Time: 18-10

Surname, name, patronymic of the person completing the certificate:
Morozkina Nora Raimovna

I hereby certify that I was an eyewitness to the following
extrasensory experiments of Grigori Petrovich Grabovoi during his
work at the NAC TsIVU :

1. On July 20, 1993, during a business trip, a Moskvich car
belonging to the NAC Central Automobile Plant (driver Igor Yelansky
and passengers G. P. Grabovoi and N. R. Morozkina) stalled at an
intersection near the Rossiya Hotel. After the driver had tried several
times to start the car, G. P. Grabovoi said that the cause was a faulty
spark plug. The car started with difficulty. The next morning, driver I.
Yelansky confirmed G. P. Grabovoi's prediction. In the evening, he
had performed maintenance, and after replacing one spark plug, the
car's starting problems stopped. The prediction of G. P. Grabovoi
about the cause of the failure was confirmed.

2. On the same day, 20.07.93, a new fax machine was being

installed in the reception room of the director of the NAC TsIVU, and a communications engineer connected it to the regular telephone network. The fax machine was malfunctioning. At that moment, Grigory Petrovich was in the reception room and gave the following information: the voltage on the fax line was higher than the voltage on the telephone lines. It was necessary to register the fax in the communications center to change the characteristics of the communication line. This information was confirmed a few minutes later by electronics and communications specialist A.S. Smotrov.

3. In August 1993, at an intersection near the Rossiya Hotel in Tashkent, a Moskvich-412 N TNB stalled and would not start. The driver Yelansky I., the director of the TsIVU NAK Morozkina N. R. and Grabovoi G. P. were in the service car. The road at this location had a noticeable slope. Reversing the car on the descent with connection at speed did not give a result. For about 10 minutes, the driver took measures to start the car, but it started only after the psychic Grabovoi G. P. decided to drive further (it started within 1 second on a horizontal surface, from the ignition key). Until the decision was made to continue the trip, Grabovoi G. P. had to remain in the area of the intersection to hand over a document to the Sirena-2 department, the building of which is located near the intersection. After such a need was removed and he decided to drive on, the car started within one second on level ground from the key

Surname, name, patronymic of the person completing the certificate: Morozkina Nora Raimovna

ignition and the driver safely drove the car to the final destination. In the case described above, there was a clear interaction between the fields of the psychic Grabovoi G.P. and the field of the car, depending on the goal of Grabovoi G.P.

4. On July 26, 1993, during a working meeting between representatives of several organizations and firms in Tashkent, problems related to the creation of a production joint venture were discussed. One of the issues discussed was the choice of containers for juices. A disagreement among the partners threatened to disrupt the project; the supplier, a partner from a foreign firm, did not agree to supply containers of the required dimensions, insisting on larger options. Grigory Petrovich Grabovoi, having extrasensorily examined the position of the foreign partner, provided the following information: the position of the foreign partner is not fundamental, it is equally beneficial for him to supply containers of any size, his interests will not be infringed, therefore, there is an opportunity to correct the information environment on this issue so that the representative of the foreign firm understands that, if the requirements of the Uzbek side are met, his benefit remains unchanged. He recommended that one of the participants in the meeting more persistently demand a decision from the foreign partner on the containers required by the Uzbek side. The following evening, the consent of the foreign partner was received.

5. In 1994, Grigori Petrovich Grabovoi conducted extrasensory experiments on:

- energy correction of vehicle mechanisms and systems;
- energy correction of the state of lubricants in mechanisms;
- energy correction of the directions of air flows that influence the

weather conditions.

In all cases, the results confirmed the ability of the psychic Grabovoi G.P. to perform the listed actions only through his abilities without using special techniques available to mechanical specialists. The witnesses and participants of these experiments were employees of the TsIVU NAK: me - the director, chief engineer Ratiashvili S.K. , driver Ermoolenko G.G. and driver Ermoolenko V.G., which is described in the testimony of my driver Ermoolenko G.G.

Morozkina Nora Raimovna

6. At my request on 06.05.93, Grabovoi G.P. issued an extrasensory forecast from the state of the software and hardware of the SPD "Asia" in the automated system "Sirena-2" within 5 minutes without familiarization with the technical documentation materials. Grabovoi's extrasensory information was confirmed by the materials of examinations carried out by qualified specialists of the Tashkent Institute of Space Instrumentation in accordance with the order of the TsIVU NAC N 18 of 19.05.1993. The materials were reviewed by the Deputy General Director of the National Airline of the Republic of Uzbekistan (NAC RUz) Syumbaev S.M. and as a specialist in the AS

"Sirena-2" gave a conclusion on the confirmation of the extrasensory information of Grabovoi G.P.

The implementation of extrasensory recommendations of Grabovoi G.P. allowed to organize events for the refinement of software products of SPD "Asia" to the state of an industrial version, to develop the most effective strategy for NAC RUz for the development of a regional data transmission network in modern conditions, with the registration of copyright for NAC RUz, which allowed in the future to save the National Airline of Uzbekistan hundreds of millions of rubles.

7. In response to my request of 10/12/93 regarding the legality of the city administration's actions on non-residential premises that infringed on the rights of the Computing Center I manage - a state structure, Grabovoi G.P., without studying any legal documentation or laws of the Republic, issued an extrasensory analysis: the actions of the city administration are contrary to the laws of the Republic of Uzbekistan. Then he gave recommendations on how to optimize my actions to resolve this issue. On 01/12/94, in one of the institutions of the highest authority of the Republic of Uzbekistan, I received a response that allowed the self-supporting divisions of our airline to save hundreds of millions of rubles.

8. Working as an expert psychic in our Computing Center, Grabovoi G.P. transmitted psychic forecasts of situations to individual specialists, in which they could find themselves while performing production tasks, being both in Tashkent and outside of it. One such example: using his clairvoyance, Grabovoi G.P. in the form of a prediction absolutely accurately described the external conditions and environment of an apartment in the city of Moscow, in which our specialist will settle during

to the testimony of the extrasensory work of Grigori Petrovich Grabovoi,
born on November 14, 1963 in the village of Kirovskoye (village Bagara) Kirovsky district of the Chimkent region of the Kazakh SSR (having a birth certificate series II - OG No. 463794)

Place of filling out the certificate: Tashkent city Date: 1996.12.26
Time: 18-10

Surname, name, patronymic of the person completing the certificate:
Morozkina Nora Raimovna

business trips, right down to the color and shape of the wardrobe. The passengers who would be next to him on the planes to Moscow and back were accurately described. Moreover, the specialist on a business trip did not even know approximately where he would be living in Moscow in advance, and the description of the appearance of the woman who would be next to him on the plane on the way back was given by Grabovoi G.P. before she bought a ticket for this plane, which was found out from her on the way back by our employee. The behavior of the specialists of the company to which the specialist of the NAC TsIVU was sent was also fully confirmed, which he drew up in the form of a report.

9. On numerous occasions, Grabovoi G.P., in advance, in the form of a statement of the essence, brought to the attention of the leadership of the NAC Central Intelligence Agency the content of negotiations and business meetings, conversations affecting the interests of the NAC Central Intelligence Agency, which took place at a distance from him and were conducted in different languages, including those that he does not speak. Subsequently, this information was documented by eyewitnesses and participants in these events.

10. Psychic Grabovoi G.P. performed an energetic correction of future events, which in an obvious case led to saving the life of an employee of the NAC CIWU. The information and energetic work of Grabovoi G.P. kept this employee from getting into his official car, for which Grabovoi G.P. predicted a collision with a pole. The prediction of Grabovoi G.P. came true - the car collided with a pole at speed, but the warning of the psychic forecast of Grabovoi G.P. saved the life of the employee.

11. In some cases, I witnessed the fact that the psychic Grabovoi G.P. changed events that had already occurred, which, according to our human logic, could not be changed to the opposite, which also clearly confirms the ability of Grabovoi G.P. to consciously and within precisely defined limits influence future events.

Based on the above, taking into account that typical examples similar to those given above are sufficient for serious statistical analysis, qualitatively reflecting also the fact that there was not a single case of non-confirmation of extrasensory information from Grabovoi G.P. when extrasensory information was received from him on a daily basis, the only possible evidence is the following:

The unique gift of Grabovoi G.P. is the ability of clairvoyance, that is, seeing all the details of events occurring both at the moment of communication with him by subscribers, and at any time, both in the past and in the future. Clairvoyance allows him to give out his information, accurately and correctly describing the essence of the issues under consideration, and, if necessary, describing with deep detail any aspects or elements of the events under consideration, and clearly formulate recommendations for making optimal decisions for

the implementation of the tasks set in the future.

I was indeed an eyewitness to all of the above, which I confirm with my signature in the presence of two witnesses.

I hereby certify that I witnessed the manifestation of extrasensory
abilities of Grigori Petrovich Grabovoi during my studies at Tashkent
University. The teacher, Associate Professor Galina Nikolaevna Gegel,
repeatedly, in the presence of the entire group after checking the

tests on mathematical analysis, expressed surprise at the work of the student Grigori Petrovich Grabovoi, who writes the correct answers to the tasks immediately, without conducting the solution. At that time, we considered him a gifted person capable of intuitively finding the correct answers, since we did not have the concepts of clairvoyance or extrasensory perception. Through the prism of today's knowledge, the above can be called clairvoyance.

I was indeed an eyewitness to all of the above, which I confirm with my signature in the presence of two witnesses.

The facts presented in this testimony took place during the second year of university in the 1982-83 academic year.

In April 1997, problems with the tax authorities arose. I expected them because of the quarrel and dismissal of the chief accountant and I knew what documents they should request first.

That's how it happened. But after turning to Grigori Petrovich Grabovoi, they demanded that ill-fated document first of all, and subsequently didn't pay any attention to it.

I declare that I was an eyewitness to the following extrasensory
experiment of Grigori Petrovich Grabovoi:

On 05.08.97 I went to a dental surgeon with a request to remove 4 roots of two molars (6,7) on the right below. An X-ray taken earlier showed complete destruction of these teeth, separately standing roots with purulent sacs at the tops. In the evening, after the roots were removed, my temperature rose to 37.0 C, my right cheek and lower gum swelled very badly, the inflammatory process reached the regional lymph nodes - parotid, submandibular. When swallowing, I experienced unpleasant pain in the right throat. Realizing the seriousness of my situation (I had been experiencing a sluggish inflammatory process in this area for more than a year), I turned to Grigory Petrovich for help by phone.

In the evening of the same day, 08/05/97, from 10:00 PM to 11:00 PM local time, I had a very distinct sensation of a clear touch to the diseased area of some rays coming from above, there were clear painful sensations and a sensation as if something was being pulled out of the area of inflammation. With these sensations, I fell asleep. By the morning of 08/06/97, I discovered that the process was localized in the area of the right cheek. The lymph nodes are normal, the temperature is normal. On 08/08/97, the swelling of the cheek

was already barely noticeable. After a few days, everything went away. In the morning of 08/06/97, looking at myself in the mirror, I discovered on my face

a fairly clearly visible pattern resembling a suture after a surgical
operation.

I showed this drawing to my mother, N. R. Morozkina. She agreed
that the drawing is clearly visible on the right cheek.

I am very grateful to Grigory Petrovich for his help.

My mother and I decided to record this interesting fact on film.
There were a few frames left on the film in our camera. My mother
took 2 pictures of my right cheek, after which we shot the remaining
frames. And I gave the film to be developed. Imagine our surprise
when on the developed film we found all the frames that were taken
before and after shooting the drawing on my cheek. The frames we
needed were simply not on the film. Although the process of shooting
my cheek was normal, with a flash and the sound of the frames being
rewound. My mother and I believe that in this case the laws of the
subtle world worked. We decided to shoot this interesting
phenomenon without consulting Grigory Petrovich.

STATEMENT

on establishing the fact of recognition of Grigori Petrovich Grabovoi healer and clairvoyant

Date and place of birth: I was born 1937 / May / 9 / in the village of Kamenka, Voronezh region

name of document, series, number, by whom and when the document was issued: I have identity card No. 5394 dated 6.06.1995.

name of the company, position, phone: work: Academician of the International Academy of Informatization, chief engineer of the Association "Cosmonautics -for Humanity"

In connection with the fact that I contacted Grigori Petrovich Grabovoi, born on November 14, 1963 in the village of Kirovsky, Kirovsky district, Chimkent region, Kazakh SSR, having a birth certificate series II-OG No. 463794, date of access September 9, 1997, I declare that Grigori Petrovich Grabovoi is indeed a clairvoyant

In the process of preparing a book about the phenomenon of Grigori Petrovich Grabovoi by my wife -Svetlana Pavlovna Salnikova, he, Grabovoi G.P., asked again three days after they met Svetlana's

patronymic and, hearing it (Pavlovna), expressed his surprise.

After this surprise, I told him about the existence of a foreign passport, where by mistake she was listed as Petrovna, and with this passport they lived for five years in Bulgaria, Sofia, 1991-1996 -.

In confirmation of what has been said, I am enclosing copies of two passports:

Salnikova Svetlana Pavlovna and Salnikova Svetlana Petrovna. This duality in the patronymic of Salnikova S. P., noticed by Grabovoi G. P., speaks of the purity of his activity even in indirect matters and, as a scientist, I like it.

Please certify my application on the basis of documents certifying my identity and on the basis of the above evidence.

Applicant: Korovyakov Nikolay Ivanovich

Address and telephone: Moscow, st. Skobelevskaya 12, apt. 285, tel. 716-77-39

STATEMENT

on establishing the fact of recognition of Grigori Petrovich Grabovoi

healer and clairvoyant

Date and place of birth: I was born 1937 / May / 9 / in the village of Kamenka, Voronezh region

name of document, series, number, by whom and when the document was issued: I have identity card No. 5394 dated 6.06.1995.

name of the company, position, phone: work: Academician of the International Academy of Informatization, chief engineer of the Association "Cosmonautics -for Humanity"

In connection with the fact that I contacted Grigori Petrovich Grabovoi, born on November 14, 1963 in the village of Kirovsky, Kirovsky district, Chimkent region, Kazakh SSR, having a birth certificate series II-OG No. 463794, date of access September 9, 1997, I declare that Grigori Petrovich Grabovoi is indeed a clairvoyant

In the process of preparing a book about the phenomenon of Grigori Petrovich Grabovoi by my wife -Svetlana Pavlovna Salnikova, he, Grabovoi G.P., asked again three days after they met Svetlana's patronymic and, hearing it (Pavlovna), expressed his surprise.

After this surprise, I told him about the existence of a foreign passport, where by mistake she was listed as Petrovna, and with this passport they lived for five years in Bulgaria, Sofia, 1991-1996 -.

In confirmation of what has been said, I am enclosing copies of two passports:

Salnikova Svetlana Pavlovna and Salnikova Svetlana Petrovna. This duality in the patronymic of Salnikova S. P., noticed by Grabovoi G. P., speaks of the purity of his activity even in indirect matters and, as a scientist, I like it.

Please certify my application on the basis of documents proving my identity and on the basis of the above evidence.

TO ALL INTERESTED PARTIES

The applicant is VALERIY IVANOVICH KORNILOV, residing at the address: 344010, Rostov -on-Don, Voroshilovsky Ave., 34/125, apt. 31. Tel. (8632)666487

STATEMENT

that GRABOVOI GRIGORY PETROVICH, using only his clairvoyant abilities, accurately characterized the intermediate state in the chemical transformation of organic matter.

I, Kornilov Valery Ivanovich, born on April 13, 1941 in the city of Kovel, Volyn region (Ukraine), passport XIX-AH No. 722431 issued on January 19, 1993 by the Internal Affairs Department of the Kirovsky district of Rostov-on-Don, proposed to Grabovoi Grigory Petrovich the task of characterizing a possible version of an intermediate state of a chemical process:

The problem was set by me, Valery Ivanovich Kornilov, head of the carbohydrate chemistry department of the Research Institute of Physical and Organic Chemistry - Rostov State University, candidate of chemical sciences, Soros associate professor of the department of chemistry of natural and high-molecular compounds of RSU and Lev Petrovich Olekhovich, Soros professor, doctor of chemical sciences, head of the department of chemistry of natural and high-molecular compounds of RSU. The solution of this problem is possible by methods of quantum-mechanical calculations and with the help of

nuclear magnetic resonance spectroscopy. In view of the fact that the material under discussion was in progress, the answer to it was unknown to me.

The solution of the problem formulated in Rostov-on-Don took place in Moscow (14/2 Solyanka St., Office 110). A written answer, which subsequently coincided with our data, was immediately given by Grabovoi G.P. in favor of substance (II). The conclusion made by Grabovoi G.P. that the realization of the third structure is more probable in a magnetic field was astonishing. Grabovoi G.P. could not know that the authors observe this process precisely in a magnetic field, which leaves its mark on the character of the intermediate particle. On the other hand, narrow specialists in this specific field of chemistry, to which the author, Professor Olekhnovich (phone 22-39-69, Rostov-on-Don), also belongs, are currently conducting work in this direction, and such a prediction of Grabovoi G.P. is significant.

I have no doubt that the forecast given by Grigori Petrovich Grabovoi in my presence is based only on his clairvoyant ability.

Personal data of Grigori Petrovich Grabovoi - born: November 14

Unnumbered (reverse) side of sheet No. 380

1963 in the village of Kirovsky, Kirovsky district, Chimkent region (Kazakh SSR), birth certificate II-OG No. 463794.

Please certify my application on the basis of documents proving my identity and the above evidence.

STATEMENT

that GRABOVOI GRIGORY PETROVICH , using his clairvoyant abilities, accurately characterized the speed of the cyclization-recyclization process of organic matter

I, Kornilov Valery Ivanovich, born on April 13, 1941 in the city of Kovel, Volyn region (Ukraine), passport XIX-AN No. 722431 issued on January 19, 1993 by the Department of Internal Affairs of the Kirovsky district of Rostov-on-Don, asked Grabovoi Grigory Petrovich to characterize the rate of the cyclization-recyclization process in the substance shown below:

The problem was set by me, Valery Ivanovich Kornilov, head of the carbohydrate chemistry department of the Research Institute of Physical and Organic Chemistry of the Rostov State University, candidate of chemical sciences, Soros associate professor of the department of chemistry of natural and high-molecular compounds of the RSU and SERGEY VASIL'EVICH KURBATOV, candidate of chemical sciences, associate professor of the same department (phone 223969). The scientific approach requires the use of dynamic NMR spectroscopy to obtain an answer to the problem. However, the compound under discussion was recently synthesized for the first time, and by the time the question was posed to G.P. Grobov, the result was unknown to us.

The solution to the problem formulated in Rostov-on-Don took place in Moscow (14/2 Solnyanka St., Office 110). The written answer was given by Grobov G.P. almost instantly: the transformation occurs at a rate of 5 times per second for a solution at 25 °C. These data were subsequently confirmed after analysis of NMR spectra.

I affirm that the forecast given by Grobov G.P. in my presence is based on his clairvoyant ability.

Personal data of GRABOV GO GRIGORII PETROVICH - was born on November 14, 1963 in the village of Kirovsky, Kirovsky district, Chimkent region

Applicant - KORNILOV VALERIY IVANOVICH

Rostov-on-Don, Voroshilovsky Ave., 34/125, apt. 31. Tel. 66-64-87

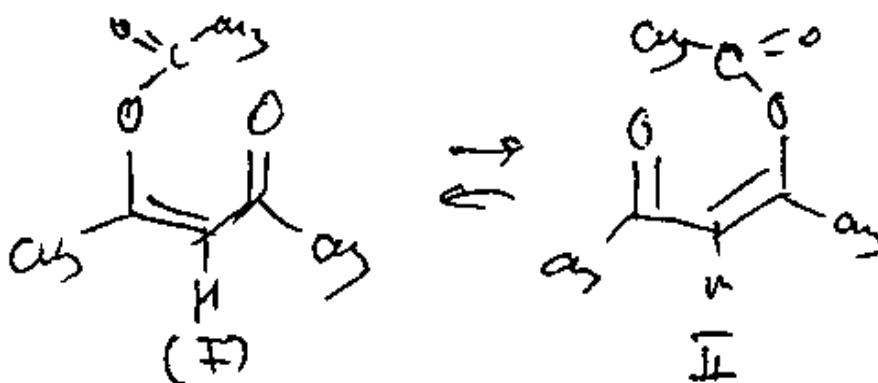

STATEMENT

about the fact that Grabovoi Grigori Petrovich, without having special equipment: for studying the properties of organic molecules and qualifications in the narrow field of organic chemistry, using only his clairvoyant abilities, accurately predicted the behavior of the molecule offered to him.

I, Valery Ivanovich Kornilov, born on April 13, 1941 in the city of Kovel, Volyn region (Ukraine), passport XIX-AN, No. 722431, issued on January 19, 1993 by the Kirovsky District Department of Internal Affairs of Rostov-on-Don, proposed a task to Grigory Petrovich Grabovoi, the solution of which impossible without conducting an experiment on a nuclear magnetic resonance device and quantum - mechanical calculations. The authors of the task were me, Valery Ivanovich Kornilov, head of the Department of Carbohydrate Chemistry of the Research Institute of Physical and Organic Chemistry of Rostov State University, candidate of chemical sciences,

Soros associate professor of the Department of Chemistry and Natural and Macromolecular Compounds of RSU and Lev Petrovich Olekhnovich , Soros professor, doctor of chemical sciences, head of the Department of Chemistry of Natural and Macromolecular Compounds of RSU (phone. work. 22-39-69).

the sake of purity of the experiment, an object was taken that had not been previously studied by others , but was subject to similar study, so the exact answer to the problem was not known to me. Grigory Petrovich Grabovoi was given the task of determining the number of migrations of the acetyl group between two structures (I and II), i.e. the question of the reaction rate was being solved . The problem was formulated in Rostov-on-Don, and the solution was made in Moscow, Solyanka Street , Building 14/2, Office 110 in my presence.

Grabov O. Grigory Petrovich almost instantly gave a written answer about the order of migrations (20 per second), which coincided with the experimental data. We, after discussion at the Department of Chemistry of Natural and High-Molecular Compounds of the Rostov State University, reject a random hit in the required value , since these values , depending on the structure, can be in very wide limits (from 10^6 to 10^{-6}) .

Unnumbered (reverse) side of sheet No. 382

I, Kornilov Valery Ivanovich, hereby affirm that the task proposed by Grabovoi to Grigori Petrovich was solved only with the help of his ability to see clearly .

Personal data Grabovoi Grigori Petrovich was born on November 14, 1963 in the village of Kirovsk, Kirovsk district , Chimkent region (Kazakh SSR), with birth certificate series II - OG No. 463794 .

Please certify my application on the basis of documents certifying my identity and the above-mentioned evidence .

Kornilov V.I.

On No. from 12.01.98

We , Lev Petrovich Olekhnovich, Doctor of Chemical Sciences, Soros Professor, Head of the Department of Chemistry of Natural and High - Molecular Compounds at RSU , and Valery Ivanovich Karnilov , Candidate of Chemical Sciences, Soros Associate Professor of the same department, Head of the Laboratory of Chemistry of

Carbohydrates at the Research Institute of Physical Chemistry of RSU, proposed the task of choosing the preferred variant of the intermediate state of the chemical process shown below to Grigory Petrovich Grabovoi (born on November 14, 1963, birth certificate II-OG No. 463794).

The solution of this problem is possible by the method of nuclear magnetic resonance and quantum-mechanical calculations. G. P. Grabovoi, not being a chemist at all, and even less a specialist in this narrow field of organic chemistry and not having special methods for studying the structure of matter , instantly, being in his office (Moscow, Solyanka Street , 14/2), gave a written conclusion in favor of structure (II), having made an additional conclusion that in a magnetic field the realization of a third structure, not taken into account by us, is possible . G. P. Grabovoi could not know in advance that the authors observe the indicated process precisely in a magnetic field, which is capable of influencing the character of the intermediate particle . Such a conclusion is consistent with our ideas obtained on the basis of the experiment , as well as with the views of other specialists in this field.

Based on the above we read that the forecast given by Grabovoi G.P. , is based on the ability to predict processes occurring at the molecular level.

In terms of practical activities of the Omega company in terms of consultations on economic issues, the following work was performed by psychic G.P. Grabov :

- 1) The characteristics of the company's employees are provided and recommendations are given on their behavior in unforeseen economic situations that may arise in the future.
- 2) The necessary information on the names of the company's subsidiaries has been provided.
- 3) Programming of the company's partner was carried out at a distance before the business trip of the company's director.
- 4) Recommendations and forecasts on emerging economic situations were provided

The results of work on points 1-4 -are as follows:

1) One of the characteristics contained forecast data that were confirmed in practice. According to the clarifying characteristics of the team members, the data did not contradict the opinion of the company's management. The recommendations attached to the characteristics were carefully studied by the company's manager.

2) Based on the name of the company located in the city of Sevastopol, a description of the appearance of the director and founder of the company is given, which coincides with reality. Information on connections with other companies and provided characteristics of the managers. The information provided intersected

in its main aspects with the opinion of the Omega management and had the character of a forecast .

3) The result of programming the partner , the Omega company, is positive, expressed in achieving stability in the business relationship between the partners.

4) Recommendations in relation to the heads of companies were unexpected, and in economic situations they actually helped to make decisions. In the area of forecasts, one of the forecasts of data in relation to the partner of the company in Moldova by his last name should be noted. The issued forecast said that if the terms of the contract from 10.11.92 were not changed, then the company "Omega" would suffer a loss. The terms of the deal were not changed due to the need for a quick decision, and the company "Omega" suffered significant damage. According to the forecasts issued for the Baltic countries, the time for implementation has not yet come.

No. 65 of 12/4/92

To the CEO of Moldindustricorporation
Mr Berlan F.

I consider it necessary to inform you that in connection with Due to failure to fulfill the terms of the agreement of 11/10/92 on mutual

money transfers IN Uzbekistan and Russia, the OMEGA company suffered significant losses, which you are obliged to compensate in accordance with current legislation.

The penalties provided for in the agreement apply only to late payments in Russia and amount to 385,000 for 11 days as of 12/04/92 .

According to current legislation, all damages, as well as lost profits associated with the failure of the contract, are compensated at the expense of the guilty party.

In total , as of 04.12.92, the amount to be compensated is 15,480,274 (fifteen million four hundred eighty thousand two hundred seventy-four) rubles, including:

- interest on the loan is 880,274 (eight hundred eighty thousand two hundred seventy-four) rubles
- fines imposed on JSC "MINDAS" -600,000 (six hundred thousand) rubles
- lost profit 14,000,000 (fourteen million) rubles

I propose that our claims be immediately considered and the issue of compensation for damages resolved. Otherwise, we will take measures to recover this amount in accordance with the procedure established by law .

CONTRACT N 1

Tashkent city
1994

"01" January

VEF "OMEGA", hereinafter referred to as the "Customer", represented by General Director L. M. Linkov , acting on the basis of the Charter, on the one hand, and Foreign Economic Company " RAMPA ", HEREINAFTER REFERRED to as the "Contractor", represented by General Director G. P. Grabovoi , acting on the basis of the Charter, on the other hand, have entered into this agreement on the following.

1. Subject of the agreement

1.1. The executor of this agreement is the psychic Grabovoi Grigoriy Petrovich.

1.2. Grabovoi G.P. undertakes to carry out extrasensory work for

the "Customer" to create a joint venture for the production of juices.

1.3. When if necessary, the "performer" undertakes to provide extrasensory information to Grabovoi G.P. both at the request of the management of the VEF "OMEGA" and at the decision of Grabovoi G.P. himself.

2. Duties of the performer

2.1. Psychic Grabovoi G.P. undertakes the following obligations:

- carry out independent extrasensory work on the subject of the agreement;
- carry out extrasensory forecasting and issue recommendations on the adoption of measures to prevent negative impacts that hinder the creation of the joint venture;
- issue extrasensory characteristics of specialists involved in the implementation of SP tasks, carry out extrasensory control over the selection of personnel;
- establish your own energy field over the entire production area of the company, to ensure control and correction of the internal and external relationships of the company to achieve the set objectives.

3. Customer's responsibilities

3.1. The "Customer" undertakes the following obligations:

- strictly follow the extrasensory recommendations of Grabovoi G.P. on any aspects of activity;
- promptly send requests for extrasensory diagnostics to the "Contractor";
- keep records of incoming extrasensory recommendations and clearly record the measures taken to implement them;
- if necessary, send their authorized representatives to conduct business meetings with the "contractor" at points and times agreed upon with him;

Numbered side of sheet No. 390

- After registration of the joint venture, as payment for the extrasensory work of Grabovoi G.P., the "Customer" provides the office and reception area of Grabovoi G.P. with office furniture (the set of office furniture is described in the appendix to this agreement).

4. Conditions of work

4.1. When carrying out the work, the "Customer" undertakes to

strictly follow the extrasensory recommendations of Grabovoi G.P.

4.2. In case of failure to comply with the recommendations of Grabovoi G.P. or unjustified termination of this agreement by the "Customer", the "Customer" bears full responsibility for all consequences under the SP.

4.3. The "Contractor" reserves the right to terminate this agreement if any incorrect actions by the "Customer" are detected in fulfilling the terms of this agreement.

5. Ensuring confidentiality

5.1 Parties guarantee the observance of confidentiality with respect to information and documentation received under this agreement.

5.2. List of persons authorized to use the documentation under this agreement must be agreed upon by the parties in a protocol.

5.3. The parties shall accept necessary measures to prevent disclosure of documentation, information or familiarization with them by third parties without the consent of each party.

6. Payment procedure

6.1. Payment of remuneration by the "Customer" to the "Contractor" shall be made by providing office furniture for the office and reception area of Grabovoi G.P. for free use on the basis of the acceptance certificate approved by the parties.

7. Responsibilities of the parties

7.1. For failure to fulfill or improper fulfillment of obligations under this agreement, the "CUSTOMER" shall be liable in accordance with applicable law.

8. Final Provisions

8.1. The performance of work under this agreement shall be formalized, if necessary, by the parties with acts (minutes) or other documents on the services rendered.

8.2. In the event of disputes arising on issues provided for by this agreement or in connection with it, the parties shall take all measures to resolve them through negotiations.

8.3. The Agreement shall enter into force on the date of its signing.

8.4. The Agreement is drawn up in TWO copies.

Numbered side of sheet No. 391

ACT

based on the results of extrasensory work by Grabovoi G.P.
in accordance with agreement No. 1 dated 01.01.1994.

Tashkent city,

January 24, 1994

This act certifies that Grabovoi G.P. has performed extrasensory work to create a joint venture for the production of juices by installing his own energy field over the information area of the

corresponding registration of the joint venture, issuing an extrasensory forecast and extrasensory characteristics of specialists. The result of the extrasensory work of Grabovoi G.P. under this agreement is the joint venture for the production of juices "Aeros" registered on January 21, 1994 by the Customer in accordance with the current legislation of the Republic of Uzbekistan.

Based on the above, consider the extrasensory work of Grabovoi G.P. under paragraph 1.2 of agreement No. 1 of 01.01.94 between VZO "RAMPA" and VEF "OMEGA" to be completed.

In accordance with paragraph 6.1 of the said agreement, VEF "OMEGA" provided, free of charge, for the office and reception area of Grabovoi G.P. a set of office furniture consisting of a sofa and two armchairs upholstered in black leatherette, an armchair upholstered in brown material, and a coffee table.

CONTRACT No. G3

Tashkent city
1994

"07" 07

MP "RIA", hereinafter referred to as the "Customer", represented by Director Mozgacheva Z. I., acting on the basis of the Charter, on the one hand, and Foreign Economic Society "RAMPA", hereinafter

referred to as the " Contractor", represented by General Director Grabovoi G. P. , acting on the basis of the Charter, on the other. The parties have entered into this agreement on the following.

1. Subject of the agreement

1.1. The executor of this agreement is the psychic Grabovoi Grigoriy Petrovich.

1.2. Grabovoi G.P. undertakes to carry out extrasensory work for the "Customer" on fundamental issues of the development of the MP "RIA" (economic, financial, organizational, technological, personnel and others).

1.3. If necessary, the "Contractor" undertakes to provide extrasensory information to Grabovoi G.P. both at the request of the management of MP "RIA" and at the decision of Grabovoi G.P. himself.

2. Duties of the performer

2.1. Psychic Grabovoi G.P. undertakes the following obligations:

- independently conduct extrasensory work on the subject of the agreement;

- carry out extrasensory forecasting of the influence of various factors on the development of the MP "RIA" and issue recommendations on taking measures to prevent negative consequences in the future;

- issue extrasensory characteristics of specialists involved in the implementation of the company's tasks from the standpoint of the acceptability of their creative, psychological and other abilities at the request of the company's management , carry out extrasensory control over the selection of personnel;

- to establish its own energy field over the entire area of production activity of MP "RIA" to solve the tasks set and arising for MP "RIA" .

3. Customer's responsibilities

3.1. The "Customer" undertakes the following obligations:

- to make payments for the extrasensory work of Grabovoi G.P. by providing services and products sold by NP "RIA" (printed, artistic, advertising products etc.) in the amount of 1,000 (one thousand) sums per month;

Numbered side of sheet No. 394

- for extrasensory information from Grabovoi G.P., payment will be made in accordance with additional agreements that will be attached to this agreement;
- strictly follow the extrasensory recommendations of Grabovoi G.P. on any aspects of activity;
- transmit to the "Contractor" requests for extrasensory information from Grabovoi G.P. on issues of MP "RIA" no more than once a week;
- keep records of incoming extrasensory recommendations and clearly record the measures taken to implement them.

4. Conditions of work

4.1. When carrying out the work, the "Customer" undertakes to consistently and clearly implement the extrasensory recommendations of Grabovoi G.P.

4.2. In case of failure to implement the recommendations of Grabovoi G.P. or unjustified termination of this agreement by the "Customer", the "Customer" bears full responsibility for all consequences in the development of MP "RIA".

4.3. The "Contractor" reserves the right to terminate this agreement if any incorrect actions by the "Customer" are detected in fulfilling the terms of this agreement.

4.4. When setting a task for the "Executor", Grabovoi G.P. either carries out energy work without answering questions, or answers. If necessary, Grabovoi G.P. independently provides his information .

5. Ensuring confidentiality.

5.1 Parties guarantee the observance of confidentiality with respect to information and documentation received under this agreement .

5.2. The list of persons authorized to use the documentation under this agreement must be agreed upon by the parties in a protocol.

5. 3. The Parties shall take the necessary measures to prevent disclosure of the contents of the documentation, information or familiarization with them by third parties without the consent of each Party.

6. Payment procedure.

6.1. Payment of remuneration by the "Customer" to the "Contractor" will be made by mutual settlements for the services rendered by the "Customer" , or by transfer to the current account of

VEO "RAMPA".

6.2. Mutual settlements between the "Contractor" and the "Customer" are carried out monthly.

Numbered side of sheet No. 395

7. Responsibilities of the parties

7.1 . For failure to fulfill or improper fulfillment of obligations under this agreement , the " Customer" shall be liable in accordance with applicable law .

8. Final Provisions

8.1. The performance of work under this agreement shall be formalized, if necessary , by acts (minutes) or other documents on services rendered .

8.2. In the event of any disputes arising on issues provided for by this agreement or in connection with it, the parties shall agree all measures to resolve them through negotiations.

8.3. the agreement comes into force on the date of its signing.

8.4. The agreement is drawn up in two copies.

8.5. Legal addresses of the parties

STATE IMPLEMENTATION AND SCIENTIFIC
PRODUCTION ENTERPRISE "PROGRESS"
(VNPP "PROGRESS")

V I D E T E L S T O

This certificate certifies that Grigori Petrovich Grabovoi worked at VNPP PROGRESS from June 10, 1991 to June 10, 1993 under contracts with the Uzbek administration . civil aviation, and later with the national airline of the Republic In Uzbekistan he is a psychic.

During the period of work, Grigori Petrovich Grabovoi, using his extrasensory abilities of clairvoyance, participated as a consultant-expert in the development of all organizational and technical activities in VNPP "PROGRESS", related to the development of the main production area of activity - "Extension of the service life of aviation equipment" (The initial conditions of the state of affairs in the area of extending the service life of AT, according to the conclusion of the Deputy General Director of the National Airline of the Republic of Uzbekistan S. M. Syumbaev - a complete lack of guarantees for the successful development of this area in Uzbekistan).

The management of VNPP "PROGRESS" proposed to Grabovoi G.P. to conduct further activities on the development of the direction "Extension of the AT resource" taking into account his extrasensory information, issued in the form of recommendations on fundamental financial-economic, organizational and technical problems.

In the process of discussing the problems and choosing the option for their solution, Grabovoi G.P. proposed for consideration recommendations based on extrasensory information reflecting the totality of psychological, economic, political and other factors influencing the implementation of issues. The depth and validity of the recommendations formed on the basis of extrasensory information allowed them to be strictly implemented from the very beginning of the joint work.

Grabovoi G.P., performing the functions of a consultant-psychic, gave out extrasensory information in the form and form necessary for solving specific problems:

1. At the request of the director of VNPP "Progress", characteristics of business partners were given, with whom Grabovoi G.P. was not previously acquainted and did not receive any information about them, at the time of the conversation these people could be hundreds of kilometers away from him and all the characteristics coincided with reality. Based on his clairvoyant abilities, Grabovoi G.P. describes a person whom he has not seen, reports his distinctive data, characteristic habits, health condition, nationality and other factors of interest to the interlocutor, which allow identifying a specific person.

Numbered side of sheet No. 398

2. Based on his extrasensory information, Grabovoi G.P. clearly states the causes and factors of problems at the stage of development of the production process under consideration, gives clear recommendations to his interlocutor on conducting business meetings, actions in unforeseen situations, and many other options for recommendations.

3. Extrasensory information allows Grabovoi G.P. to determine mutually beneficial conditions for cooperation with business partners, their financial status at the current moment, in the past and in the future.

The results of the use of extrasensory information in the practical production activities of the enterprise are presented in the reporting materials for the agreement with the Uzbek Civil Aviation Authority and certified by signatures and seals.

The reliability and optimality of the extrasensory work of Grabovoi G.P. is confirmed by the results of the practical activities of the management of VNPP "PROGRESS".

The results of the work on the application of extrasensory information of Grabovoi G.P. in the practice of production activities of VNPP "PROGRESS" are signed contracts and general agreements with legal entities that ensure the implementation of certain stages of work in the implementation of the task "Extension of the resource of aircraft". The results of the work on the development of the direction "Extension of the resource of AT" on the basis of VNPP "PROGRESS" allow us to conclude that Grabovoi G.P., using his extrasensory abilities, can perform at a highly professional level the functions of a consultant-expert in choosing optimal solutions in various areas of production activities.

The special value of the extrasensory recommendations of Grabovoi G.P. is that the ability of clairvoyance allows him to view specific events taking into account the multifactorial influence of the environment and specific individuals influencing the course of events, both at the current moment in time and in the past and future, which is currently inaccessible to traditional methods, analytical means of assessing the economy and deterministic logical analysis.

C E NTER OF INFORMATION COMPUTING SERVICES
OF THE NATIONAL AIRLINE OF THE REPUBLIC OF UZBEKISTAN

CERTIFICATION

This is to certify that Mr. Grabovoi Grigori Petrovich worked as an expert extra sense at the Center of Information Computing Services of the National Airline from 01/07/1993 to 09/01/1993.

During this period of his work as an extra sense trustworthiness of his information as an extra sense was completely provided. Below, some typical examples of how Mr. Grabovoi used his extra sense ability during his work at the Center are shown in some paragraphs.

1. On the request of the Director of the Center of Information Computing Services of 05/06/1993 to define the working conditions

of apparatus of the network of transmission data "Asia" which is in computer reservation system "Syrena-2" Mr. Grabovoi in 5 minutes without any preliminary acquaintance with this system gave his extra sense information on working conditions of apparatus in "Asia", which was later proven by the analysis made by qualified specialists of Tashkent Institute of Space Equipment by the order No. 18 of 05/19/1993 of the Center of Information Computing Services of the National Airline. The results of the analysis were considered by Mr. Sumbaev, Deputy Director General, who is a specialist in this field, and he confirmed extra sense information of Mr. Grabovoi.

2. Mr. Grabovoi was requested to give information on the problem of competence of District Authorities of the city to register the building of the Center of Information Computing Services with the District Authorities (Hokimiat). Mr. Grabovoi without any preliminary knowledge of legal and other documents gave the following information: "District Authorities have no right to register state uninhabitable buildings."

The next stage was to define which authorities could prove the correctness of his conclusion and Mr. Grabovoi addressed the Committee for Controlling State Property and Privatization in the Republic of Uzbekistan. An official letter No. 11/01-56 of 01/12/1994 was received which stated the correctness of Mr. Grabovoi's information. This helped National Airline to save millions of roubles.

3. Mr. Grabovoi could predict situations in which some officers could find themselves when he was not only in Tashkent but out of it too. Here is one of the examples: he foretold and described in details the interior of the flat in Moscow where one of the specialists was going to stay during his business trip (he even described the color and the shape of the wardrobe in the room). He also described the appearance of the passengers-his neighbours on board the plane to and from Moscow. It should be noted that the specialist himself didn't know where he would stay in Moscow. The passenger on board the plane on his way back to

Unnumbered (reverse) side sheet No. 399

Moscow was described by Mr. Grabovoi before she booked the ticket for this flight. She said about this when she was questioned. Such

kind of information was reported to Mrs. Morozkina NR., Director of the Computing Center, Mr. Ratiashvily SK, Head of the Partnership, some specialists from the Administration of Information Computing Center. All information about Mr. Grabovoi was proven.

4. When traveling by service car Mr. Grabovoi can always say if something is wrong with it, he explains the cause of the disrepair, and this always proves true when the car is checked.

Mr. Grabovoi can always say what is wrong with the faxes of computers or reservation system "Syrena-2", stating the date of breakage, he is never mistaken.

5. By the order of the Administration of the Computing Center, looking at the list of names only, Mr. Grabovoi could characterize people, though he didn't know them, he gave information about their traits of character and their ability to work in different spheres. His information was always precise. His recommendations were used for the new infrastructure of the Computing Center.

6. More than once Mr. Grabovoi informed the Administration of the content of business talks concerning the interests of the Computing Center at which he was not present, moreover the talks were held in the languages he didn't know. Later his information was proven by those who participated in the talks.

7. Mr. Grabovoi made correction of some events in the future which saved the life of one of the officers of the Computing Center.

Mr. Grabovoi predicted a car accident and warned the officer not to use this car. And really this car collided into a pillar.

Mr. Grabovoi could also influence some events of the past though logically it is impossible to believe.

It is necessary, to note that all information of Mr. Grabovoy was always proven and in view of the above mentioned it is possible to make the following conclusions:

Mr. Grabovoi possesses a unique ability to see and to foresee the details of the events that took place in the past and future events. He can give information concerning the matter under consideration and make recommendations how to solve the problems.

This is to certify that Mr. Grabovoi

1. Possesses unique ability to find disorders in the network of transmitting data of the reservation system "ASIA" and to predict some future disorders.

He can see the perspectives of development of all information system of the National Airline taking into consideration political and economic aspects of the problems, help in appointing the most capable specialists and managers.

Numbered side sheet no. 400

2. To check in a short time and without using any documents the legality of decisions made by Executive Bodies.
3. To foretell the place of future events and to describe some of its participants if necessary.
4. To check the working conditions of different apparatus/technique/.
5. When selecting the personnel, reading their names only, to give characteristics and make recommendations for their appointment.
6. To comment on the content of the conversation any distance and any language it is conducted.
7. To make corrections of future events on the legal basis.

It is necessary to state that extraordinary value of extra sense recommendations of Mr. Grabovoi is that he uses different factors to analyze the causes influencing the events of the present, past and future, that cannot be done using traditional methods.

Passport of Mr. Grabovoi: III- OG No. 586058, issued 02/01/1980

RECORDING OF THE CONVERSATION

The meeting took place in the office of the director of the Central Intelligence Agency of the National Anti-Corruption Center, N. R. Morozkina, on July 26, 1993. The conversation lasted from 18:10 to 19:20.

The following were present at the conversation: Deputy Director General of the NAC Syumbaev S. M., Director of the Central Intelligence Agency of the NAC Morozkina N. R., General Director of the VEO "Rampa" and psychic Grabovoi G. P., General Director of the firm "Omega" Linkov L. M.

Contents of the conversation:

The main issue discussed during the conversation concerned the organization of a joint venture for the production of fruit and vegetable juices. The organization of the joint venture at the time in question presented serious problems, since the head of the Consolidated Press company, Paul Lee, insisted on the supply of 500-gram plastic bottles. Such a capacity does not meet the needs of the NAC. To sell juices on flights, a container of no more than 500 grams is required. Considering that it is only possible to earn currency from the sale of juices on flights, the question arose of finding a foreign partner who would undertake the task of providing containers of no more than 300 grams. In this situation, the psychic took information from the field of information, the existence of which is currently recognized by science, that "for Paul it is not important what kind of container to supply", informed those present about this and twice recommended that L. M. Linkov, during his meeting with Paul before the flight, demand from Paul the supply of the plastic bottles necessary for the NAC. At the same time, he carried out such formation of the energy environment that ensured Paul's decision to supply NAC with containers up to 500 grams and contributed to Paul's good health. As a result of the conversation, the following distribution of responsibilities was adopted on organizational issues: Morozkina N. R. and Grabovoi G. P., as the general director of VEO "Rampa", will be engaged in the registration of the joint venture, which was decided to be introduced by the founder of the joint venture with the

functions of the organizer of works, technological documentation, software for the production process and the sale of products intended for NAC on NAC flights and airlines of other countries. Linkov L. M. and Syumbaev S. M. will resolve issues of financial support for the joint venture.

Note: As a result of the conversation between L. M. Linkov during his meeting with Paul before the flight, Paul decided to supply NAC with containers up to 500 grams, therefore the informational recommendation and the work of the psychic were correct.

The interview was recorded by the director of the Central Intelligence Agency of the HAK (signature) Morozkina N.R.

Holding

On August 7 at 16.30 I had a meeting with Grabovoi G.P. During
the meeting, Grabovoi G.P. named and described the person who
was in my office at 9.30 a.m., and he also warned him about some of
this person's issues related to security matters.

Indeed, this person had the name and appearance that Grabovoi
G.P. called and had previously been involved in security issues.

Conclusion: from the above it follows that Grabovoi G.P. really has
clairvoyance that allows him to:

1. Identify key moments in meetings with people in a timely
manner when security issues are being resolved.
 2. Describe people and identify names of people he has never seen

On March 25, 1995, I contacted Grabovoi G. P. regarding my
business in 1994. Grabovoi G. P. extrasensorily (without knowing
anything about me beforehand) determined the names of persons
who actually interact with my partner, in those cases when he gave a
description of persons -it coincided with the actual ones. The persons
described actually corresponded to the agreement between me and
the partner regarding the confidentiality of information.

Conclusion: Grabovoi G.P. extrasensorily determined the names and
appearance of persons who have close ties with a partner and in
contact with whom confidentiality of information is maintained.

The extrasensory diagnostics of my body carried out by Grabovoi
G.P. coincided with the actual confirmed by medical institutions.

I certify that Grabovoi Grigori Petrovich, born November 14, 1963 (holding passport series III-OG No. 586058, issued on February 1, 1980) conducted a consultation on business issues on February 1, 1995. During the consultation, Grabovoi G.P. on the issue of the fastest possible organization of construction, through his

clairvoyance, he determined the name of my partner Andrey, essentially the project manager, and it is on him that the rapid organization of construction depends, i.e. Grabovoi G.P. extrasensorily, without previously knowing my partner Andrey, determined the key figure on whom the implementation of the issue depends, on which I turned to Grabovoi G.P.

The second question was the desire to successfully complete the working design. On the second question, Grabovoi G.P. immediately described the appearance of a person who would accept the results of the working design stage and his satisfaction would indicate the successful completion of this stage. Consequently, on the second question, Grabovoi G.P. extrasensorily determined the key figure on whom the solution to the second question depends. Grabovoi G.P. could not know this person.

MOSCOW, FEBRUARY 08, 1995

CERTIFICATE

This is evidence that Grabovoi Grigori Petrovich, born on November 14, 1963 in the Chimkent region of the Kazakh SSR, carried out extrasensory work in the company "Nadezhda-Holding" during the period from August 1994 to January 1995. During the elapsed period, conclusions were made that Grabovoi G.P. through his clairvoyance:

1. Correctly indicates the stores where the product should be sold, and those stores where it was not recommended to sell the product had really insignificant sales or no prospects.
2. Without question, accurately describes the appearance, character and intentions of the people surrounding the director of the subsidiary, confirming the forecast of people's intentions.
3. Accurately described the appearance of the chief accountant of the subsidiary, without previously knowing the chief accountant, and correctly indicated where the mistake was made.
4. Correctly identified the development of a new tumor in an employee.
5. Accurately identified the period in the past in which there were violations in the accounting documentation and his information made it possible to eliminate the violations.
6. Accurately identifies the problems of the company "Nadezhda-Holding"
7. Accurately describes the appearance and main character traits of business partners, without knowing them beforehand, and gives correct recommendations on partners.

fax (095) 269-32-21

8. Based on the name of the country, accurately describes the appearance and character of a business partner from that country, and also accurately describes the appearance and character of the manager with whom the partner works and correctly identifies the events in the life of the manager in the field of business

9. In October 1994, he correctly determined the exchange rate of the US dollar against the Russian ruble in December 1994.

Conclusion: Extrasensory work conducted by Grabovoi G.P. showed that Grabovoi G.P. through his vision accurately perceives real events of any period of time, which significantly helps in the work of the company "Nadezhda-Holding"

CERTIFICATE

about the extrasensory work of Grigori Petrovich Grabovoi,
born November 14 , 1963 in the village of Kirovsky

Kirovsky district of the Chimkent region of the Kazakh SSR
(having a birth certificate series II - OG No. 463794)

I hereby confirm that during the meeting on August 4, 1995, the psychic Grigori Petrovich Grabovoi, having touched upon the banking topic, reported on the major problems expected after August 23, 1995. He recommended taking preventive measures on interbank transactions on August 22 and 23, 1995. The forecast was fully confirmed: the crisis on the Moscow interbank market during this period ended with "Black Thursday" (August 24) - dozens of banks did not fulfill their obligations on transactions and payments to clients, many were on the verge of bankruptcy, the interbank market was reduced to single transactions.

Thus, Grigori Petrovich Grabovoi predicted the banking crisis 20 days in advance and gave recommendations, if followed, which would allow the bank to avoid losses of financial resources.

CONTRACT

on scientific and research cooperation between
RESEARCH INSTITUTE OF TRADITIONAL TREATMENT METHODS OF
THE RUSSIAN FEDERATION 'S MINISTRY OF HEALTH AND MP
and a specialist in forecasting and correcting emergency events
Grabovoi Grigori Petrovich

N 01/95 bf dated "10" December 1995

1 . SUBJECT OF THE AGREEMENT

1. The Research Institute of TML of the Ministry of Health and Medicine of the Russian Federation and Grabovoi G.P. have concluded this cooperation agreement for the purpose of conducting joint research and practical activities.

1.1. Research activities are aimed at:

development of a methodology for determining the clinical effectiveness of energy-informational influence during treatment using the author's method,

- development of criteria for assessing the quality of health and

medical care,

- scientific analysis of the method and the limits of its application in practical medical activity .

1.2. Practical activities are aimed at developing specific methods, medical reporting and regulatory documentation, standards for conducting examination (testing) of energy-information impact; developing programs for accumulation and processing of data.

2. RESPONSIBILITIES OF THE PARTIES

2.1. The Research Institute of TM and the Ministry of Health and MP of the Russian Federation, for its part , undertakes to:

2.1.1. Provide expert, methodological and advisory assistance in conducting scientific research;

2.1.2. Ensure coordination of activities, assist in establishing contacts with external organizations, including foreign ones, conducting work in the specified area ;

2.1.3. Participate in the development, review and submit for approval research programs and other scientific products to the Ministry of Health and the Ministry of Industry and Trade of the Russian Federation and other interested organizations .

2.1.4. Conduct clinical testing of jointly developed diagnostic, therapeutic and research methods, hardware and software and means of energy-informational influence ;

2.2. Grabovoi G.P. undertakes :

2.2.1. Conduct scientific research using jointly developed programs and methods;

2.2.2. Accept individuals for examination upon referral from the Research Institute of TML.

2.2.3. Provide information on the progress of research.

2.2.4. Conduct research strictly in accordance with current legislation.

2.2.5. Person in charge: Head of the Clinical Biophysics Laboratory Kharisov N. F.

3. PAYMENT PROCEDURE

a non - financial basis. The procedure for settlements on expenses for the creation of scientific and technical products, clinical and technical

Unnumbered (reverse) side of sheet No. 412

testing, information search and patent examination are determined

by the parties independently .

4. ADDITIONAL TERMS

4.1. The results of the above-mentioned works shall be used in further research jointly and only by the parties to this agreement; publications and filing of applications for copyright certificates (patents) shall be carried out on the basis of parity of copyrights; further commercial use of the results shall be carried out by agreement of the parties.

4.2. The parties have the right to involve third-party organizations , provided that the results of the developments become the intellectual property of the parties to this agreement on an equal basis.

5. CHANGES TO THE AGREEMENT

5.1. This agreement may be amended, including supplemented, by the parties at any time. Agreements to amend (supplement) the agreement after their signing by the parties are an integral part of this agreement.

6. TERM OF THE AGREEMENT

6.1. This agreement shall enter into force upon signing and shall be valid for one year.

6.2. If, two months before the expiration of this agreement, neither party declares (in the form of a written notice) the termination of the agreement, then this agreement shall be considered extended for the following year.

6.3. The Agreement may be terminated early at any time by mutual agreement of the parties.

In resolving all issues not provided for by this agreement, the parties shall be guided by current legislation.

This agreement is made in 2 copies, each having equal legal force.

Legal addresses of the parties:

1. Research Institute of TML Ministry of Health and MP of the Russian Federation 103051, Moscow, Petrovsky Boulevard, 8, account 67122813 in the Sverdlovsk branch of Mosbusinessbank, MFO 201241

2. Grabovoi Grigory Petrovich, Passport III-OG No. 586058, issued 01.02. 1980.

(The above data of this sheet are entered from the first sheet of the certificate)

potential clients. He himself will do the same. It was also suggested to draw up a serious agreement with some company on long-term contacts, which could influence the founders' decision on the fate of the Service Center, since the Service Center would be obliged to fulfill its obligations to the client within the framework of this agreement.

Result:

- 1) It worked out with the conclusion of the contract.
- 2) From 12.02.96 to 23.02.96 the number of clients increased sharply, the Service Center was loaded to 70% of its capacity. The Service Center was offered to engage in a new type of activity - international tourism. The offer came completely unexpectedly, by chance. Previously, we did not even consider this direction in the projects. During this period, the founder requested a financial report, despite the fact that the reporting period was (longer) 1.04.96. The report showed figures for losses for 1995 and explanations of a subjective and objective nature were expected to cause a negative reaction and, accordingly, verbal showdowns. However, the founder liked the report for its specificity and deep economic analysis. The period from 12.02.96 to 23.02.96 was the most profitable and starting from the moment the Service Center was established - on 1.06.95

CERTIFICATE

about the extrasensory work of Grigori Petrovich Grabovoi, born on
November 14, 1963 in the village of Kirovsky (the village of Bagara)
of the Kirovsky district of the Chimkent region of the Kazakh SSR,
having a birth certificate series II - OG No. 463794.

Place of filling out the certificate: Tashkent city Date: 1996.10.19
Time: 17-30

I, Morozkina Nora Raimovna,

date and place of birth: born December 16, 1940, Proletarsk,
Leninabad region, Tajik SSR

state: citizen of Uzbekistan

Place of residence and home phone number: I live in: Tashkent, C-5,
bldg. 2a ' apt. 115, tel. 35-75-90,

Place of work, position and office phone numbers: Center for
Information and Computing Services of the National Airline of
Uzbekistan -, director, tel. 54-87-82

I declare that I was an eyewitness to the following extrasensory
works of Grigori Petrovich Grabovoi:

In my practical work in 1993, when forming the new Computer
Center of the National Airline of Uzbekistan (CNAU NAC), I used the
recommendations of the psychic Grigory Petrovich Grabovoi when

selecting personnel. At my request, he issued physiognomic characteristics (the structure of the character form) to leading specialists, taking into account their suitability for performing specific functions in the Center's divisions. All characteristics are laconic and correct, clearly define the professional suitability of a specialist in a specific area of work. The characteristics were transferred for evaluation to a professional psychologist, the conclusion was made: a sector of characteristic psychological traits was clearly cut out, determining the suitability of an employee in the area where he will have to work.

The use of recommendations by Grammov G.P. in the process of forming a new team made it possible to create a working creative team and realize its functional purpose -of automation of management processes.

I declare that I was an eyewitness to the following extrasensory
works of Grigori Petrovich Grabovoi:

In my practical work in 1993, when forming the new Computer
Center of the National Airline of Uzbekistan (CNAU NAC), I used the
recommendations of the psychic Grigory Petrovich Grabovoi when
selecting personnel. At my request, he issued physiognomic
characteristics (the structure of the character form) to leading
specialists, taking into account their suitability for performing specific
functions in the Center's divisions. All characteristics are stored in the
archive, they are laconic and correct, clearly determine the
professional suitability of a specialist in specific areas of activity. I
passed the archive of characteristics for evaluation to a professional
psychologist, a graduate of Leningrad University. The following
evaluation was given:

The characteristics are strictly focused on the professional suitability of specialists in specific areas of activity. The sector of physiognomic and psychological traits that determine the suitability of the employee as a specialist and member of the team in which he will have to realize himself is clearly cut out.

The use of recommendations from the psychic Grabovoi G.P. in the process of forming a new team made it possible to create a working creative team even in the conditions of a mass exodus of specialists from Tashkent and to ensure its functional purpose of improving existing information systems and automating production and management processes.

I was indeed an eyewitness to all of the above, which I confirm with my signature in the presence of two witnesses.

I, Balakireva Elena Dmitrevna,

Date and place of birth: born 1960.18.02. South Kazakhstan, Chikent city

Place of residence and home phone number: I live in: Tashkent, M. Sputnik-4, bldg. 50, apt. 217, tel. 57-11-38

name of document, series, number, by whom and when the document was issued: I have an identity card passport XIV-YUS No. 632428 of the Department of Internal Affairs of the Kuibyshev District Executive Committee of Tashkent

Name of the company, position and office phone numbers: I work as Deputy General Director for Economics, phone 54-58-79

In early January 1994, I contacted G. P. Grabovoi regarding the loss of a ticket (airline) on the Uzbekistan Airlines route Moscow-Tashkent from December 30, 1993.

I lost my ticket from Domodedovo airport (after departure) and I couldn't find it in Tashkent.

Because of this, I lost my annual ticket (discounted) for the following year, 1994.

After contacting Grabovoi G.P., I found my plane ticket in the place where I had previously looked for it, but at that moment I did not find it.

Conclusion: I believe that G.P. Grabovoi carried out the materialization of an airline ticket for December 30, 1993.

APPENDIX No. 1 Sheet No. 2

to the testimony of the extrasensory work of Grigori Petrovich Grabovoi,
born on November 14, 1963 in the village of Kirovskoye (village Bagara) Kirovsky district of the Chimkent region of the Kazakh SSR (having a birth certificate series II - OG No. 463794)

Place of filling out the certificate: Tashkent city Date: 1997.01.31
Time: 19-00

Surname, name, patronymic of the person completing the certificate:
Morozkina Nora Raimovna

I hereby certify that I was a witness and participant in the extrasensory experiment of Grigori Petrovich Grabovoi, conducted by him on May 14, 1993, at the Information and Computing Services Center of the National Airline of Uzbekistan. At 9:30 a.m., during a meeting in his office, Grabovoi G.P. told me that he wanted to conduct an extrasensory experiment on the dematerialization and materialization of a specific object at a distance, adding that it could be any document. The HR department of my computing center was located 10 km from our location on the territory of the Tashkent airport. I named a specific document, which I had signed the day before and handed over to the HR engineer Galina Nikolaevna Zavalina. He accepted my proposal to select an object for dematerialization. He suggested conducting an experiment using the following technology. I call the HR engineer and ask him to hand me a specific document by chance. This document is not in the personal file of the specialist I indicated. Then I myself drive up to the airport and look for the document together with her. I ask the HR engineer

to write me a report about the loss of this document. After that, I return to my office and call the HR department again and ask the HR engineer to review the personal file of the specialist whose document disappeared. The document will be found in the same folder.

The entire scenario was executed exactly according to the proposed technology. As a result, the document first disappeared and no one could find it, as stated in the report of the HR engineer. After my second call, the HR engineer found it in its place in the employee's personal file, about which she made an official statement and certificate.

All of the above took place on May 14, 1993, which confirmed for us the ability of Grigori Petrovich Grabovoi to dematerialize and materialize specific objects located in places inaccessible to him.

I was indeed an eyewitness to all of the above, which I confirm with my signature in the presence of two witnesses.

CERTIFICATE

about the extrasensory work of Grigori Petrovich Grabovoi, born on
November 14, 1963 in the village of Kirovsky (the village of Bagara)
of the Kirovsky district of the Chimkent region of the Kazakh SSR,

having a birth certificate series II - OG No. 463794.

Place of completion of the certificate: Khimki, Moscow region.

Date: 1994.09.30 Time: 20-10

I, Svetlana Pavlovna Glushko, was born on December 11, 1941, Ivanovo region, citizen of the Russian Federation, reside in: Khimki, Moscow region, 9 Maya St., 12, apt. 67, have an identity card issued by the editorial office of the newspaper "Megapolis-Continent", columnist in the editorial office of the newspaper "Megapolis-Continent"

On September 22, 1994, during a meeting with G. P. Grabovoi in Khimki, Moscow Region, on Moskovskaya Street, building of the Central Research Institute of Mechanics and Electrophysics, room 120, a conversation arose about the possibility of materialization or teleportation (transfer of objects). In order to convince me of the possibility of such phenomena, G. P. Grabovoi suggested materializing some object in my apartment, where he had not entered and had never been before. Eight days later, on September 30, 1994, in my hallway, on the under-mirror table, I discovered two objects that had not been there before and could not have appeared from anywhere. No strangers had entered the house during this time, and my son, who lived with me in the apartment, had not brought these objects. Seeing them for the first time, I immediately realized that this was -the result of materialization conducted by G. P. Grabovoi.

The purity of this experiment also lies in the fact that G. P. Grabovoi did not know my address, and G. P. Grabovoi carried out the Materialization in absentia in my apartment, where it was agreed

Place of filling out the certificate: military registration number SU-594
Hong Kong-Moscow Date: 1994.12.14

I, Malyutin Alexander Vladimirovich,

state: citizen of Russia

date and place of birth: 10.01.1972

Residential address and home telephone number: resident 121352,
Moscow, Davydovskaya St., 12/2, apt. 49 tel. 449-3441

name of document, series, number, by whom and when the
document was issued: passport with an identity card, series 43 No.
5405128, issued by Department of Internal Affairs 428, 02.04.1994.

I contacted psychic Grabovoi G.P. (holding passport series III-OG N 586058, issued on 01.02.1980, certificates series A N 018465 and series A N 018466 for engaging in psychic activity) with the following purpose: while in my room at the Inter-Continental Hotel, Manila, Republic of the Philippines, on 12.12.1994, I discovered problems with my TV (the TV did not respond to commands from the remote control, showing one program, it was impossible to change the channel, change the brightness, etc.) and contacted Grabovoi G.P., who was in another room, in order to tell him about what had happened, without, however, directly asking him to repair the TV. Having complained about the problems, I returned to my room, and the floor duty officer came there to find out the cause of the problem with the TV in my room. However, by this time the TV was already in normal working order and we did not notice any problems in its operation.

On December 13, 1994, while staying at the Inter-Continental Hotel, Manila, Republic of the Philippines, I once again approached Grabovoi G. P. with the following request: among the gifts that we had brought with us to the Philippines (as souvenirs), I still had a bottle of vodka that I did not want to take back. Knowing that on that day Grabovoi G. P. would meet with the staff of the Russian embassy in the Philippines, I suggested to Grabovoi G. P. that I give the bottle that I had left to the embassy staff. However, Grabovoi G. P. did not approve of my idea. By suggesting that he take and hand over the bottle (which was in my room at the time of our conversation with Grabovoi G. P.), I mentally wanted to somehow get rid of it. After our conversation, I forgot about the bottle and remembered it only the

next day when I was packing my things, preparing to leave for the airport. I was unable to find the bottle in the room (it was always on my table), and after arriving in Moscow it was not among my things. Considering the class of the hotel we stayed in Manila (5 stars, Inter-Continental), it is impossible to assume that the bottle was stolen by someone from the hotel staff.

CERTIFICATE

With this testimony, I, Babaeva Tatyana Pavlovna, certify that Grabovoi Grigori Petrovich, born on November 14, 1963 in the village of Kirovsky (the village of Bagara) of the Kirovsky district of the Chimkent region of the Kazakh SSR (having a birth certificate series II-OG No. 463794), using his extrasensory abilities, performed the following experiment on the materialization of an object:

I, Babaeva T. P., was an eyewitness to a very interesting event. It happened during my business trip to India in April 1994. My airline ticket was lost. All my searches were in vain. No matter how much and where I looked for it, I could not find it. Grigori Petrovich Grabovoi helped me. He told me to calm down and look in the shopping bag, where I had already looked, although it should not have been there. Having pulled everything out once again, at the bottom I saw a crumpled and slightly dirty ticket. I owe this miracle to Grigori Petrovich Grabovoi, who materialized the ticket I had lost. The only difference between the ticket materialized by Grigori Petrovich Grabovoi and the one I had lost was that the ticket he

materialized was stained with juice from an apple that was in the bag. As Grigori Petrovich Grabovoi later explained to me, he did this so that when the ticket was found in a place where it had not been before, I would not experience stress. The first thought should have been that since the ticket was stained with apple juice, it had previously been in a shopping bag in which there was an apple that was secreting juice, and then came the thoughts about my repeated looking through the shopping bag and the absolute certain absence of the ticket there before the start of the remote extrasensory work of Grigori Petrovich Grabovoi. In this way, Grigori Petrovich Grabovoi showed how he takes into account the degree of a person's susceptibility during the materialization he carries out, so as not to cause stress in a highly susceptible person upon finding a materialized object where it definitely was not before the start of the extrasensory materialization carried out by Grigori Petrovich Grabovoi.

Name of the company, position and office phone numbers: I work for JV "Interserviceenergo -Asia"

name of document, series, number, by whom and when the

document was issued: I have an identity card: passport CA

0181024, issued by the Yankasaray District Department of Internal Affairs of Tashkent on 13.05.95.

I, Babaeva Tatyana Pavlovna and my husband, Babaev Viktor Borisovich, flew on a business trip on 26.03.94 to Delhi together with Grabovoi G.P. An employee of the Uzbekkabel JSC, -M.M., was supposed to fly with us. When leaving the Tashkent airport, -she was not allowed to go through customs by the employees of the Ministry of Internal Affairs, since she did not have a stamp in her passport in place of the photograph, although it was definitely there when receiving the passport and it is the presence of this stamp and entry visa that is carefully checked by the Ministry of Foreign Affairs bodies and especially at the Indian embassy in Tashkent, as well as by the reservation dispatcher and the cashier of the airline "Havo Yollari". Later, already on the plane, it turned out that the seal was removed by Grigori Petrovich Grabovoi using a contactless extrasensory method when M. was moving from the airport duty payment cash desk to the police station (before registration) because M-a's husband was forcing her to transfer her luggage to G.P. Grabovoi. My husband was very upset by this circumstance and was worried about the upcoming unpleasant conversation with the general director of Uzbekcable JSC, one of the founders of his joint venture and a relative of M-a. On the plane, Grabovoi told him not to worry, since

the prosecutor's office would seriously deal with the general director and the entire management of the plant in three months . We did not believe this at all, because the general director was in good standing in the city and things were going well at the plant. However, on July 2, 1994 (three months and 6 days later), the entire management of the plant was arrested, as G.P. Grabovoi predicted.

STATEMENT

on establishing the fact of recognition of Grigori Petrovich Grabovoi
a healer and clairvoyant, capable of materializing and dematerializing
objects

(objects) of physical reality

Date and place of birth: I was born on 1952.03.15 in Tashkent
name of document, series, number, by whom and when the
document was issued: I have an identity card passport CA 0181024
issued by the Yankasarai District Department of Internal Affairs of
Tashkent on 13.05.95

In connection with the fact that I contacted Grigori Petrovich
Grabovoi, born on November 14, 1963 in the village of Kirovsky,
Kirovsky district, Chimkent region, Kazakh SSR (having a birth
certificate series II-OG N 463794, passport series III-OG No. 586058,
issued on February 1, 1980), I declare that Grigori Petrovich Grabovoi
really materialized the ticket I lost. This happened during my business
trip to India. My airline ticket was lost. All my searches were in vain.
No matter how much and where I looked for it, I could not find it.
Grigori Petrovich Grabovoi helped me. He told me to calm down and
look in the shopping bag, where I had already looked, although it
should not have been there. Having pulled everything out again, at
the bottom I saw a crumpled and a slightly soiled ticket. This was
done in order not to cause stress in a highly sensitive person upon
discovering a materialized object where it definitely was not before
the start of the extrasensory materialization conducted by G. P.
Grabovoi.

Please certify my application on the basis of documents proving my
identity and on the basis of the above evidence.

CERTIFICATE

With this testimony, I, Babaeva Tatyana Pavlovna, certify that Grabovoi Grigori Petrovich, born on November 14, 1963 in the village of Kirovsky (the village of Bagara) of the Kirovsky district of the Chimkent region of the Kazakh SSR (having a birth certificate series II-OG No. 463794), using his extrasensory abilities, performed the following experiment on the materialization of an object:

One day, when I returned to the hotel, I discovered that I had lost the keys to my room. I knew for sure that I had not given them to the duty officer, but had taken them with me. I checked all my pockets and my bag, but they were gone. I was very upset and did not know what to do. I decided to contact the senior duty officer, but at that moment Grigori Petrovich Grabovoi, who had been watching my actions from the side all this time, came to my aid. He suggested going up to the floor and checking my bag again, which I did. Imagine my surprise when I found the key and opened the door. It was hard to believe, because I had shaken everything out of my bag and checked it thoroughly. I think that this is only possible thanks to Grigori Petrovich Grabovoi's extrasensory abilities to materialize objects.

APPENDIX #1

to the certificate of extrasensory work of Grigory Petrovich Grabovoi, born on November 14, 1963 in the village of Kirovsky (the village of Bagara) of the Kirovsky district of the Chimkent region of the Kazakh SSR, holding a birth certificate series II - OG No. 463794.

Place of filling out the certificate: Tashkent city Date: 1996.12.26

Time: 19-06

Surname, name, patronymic of the person completing the certificate: Babaev Viktor Bagirovich

I hereby certify the following:

In March-April 1994, I flew with Grigory Petrovich Grabovoi on a business trip to India. An employee of a related firm, Zh., flew with us on the business trip. When leaving the Tashkent airport, Zh. was not allowed to go through customs by the Ministry of Internal Affairs officers, since she did not have a stamp in her passport in place of the photograph, although she definitely had one when receiving her passport and it is the presence of this stamp and entry visa that is carefully checked by the Ministry of Foreign Affairs bodies and especially at the Indian embassy in Tashkent, as well as by the reservation dispatcher and the cashier of the airline "Havo Yollari". Later, already on the plane, it turned out that the seal was removed by Grigori Petrovich Grabovoi when Zh. was moving from the airport duty payment cash desk to the police station (before registration) because Zh.'s husband was forcing her to bring illegal luggage to G.P. Grabovoi. I was very upset by this circumstance and was worried about the unpleasant conversation that lay ahead of me with the management of the company, Zh.'s relative. On the plane, when we were flying to Delhi, Grigori Petrovich Grabovoi told me not to worry about the upcoming conversation, since the prosecutor's office would seriously deal with her relative and the management of his company in three months and the consequences would be very serious. I did not believe this at all, because Zh.'s relative was in good standing in the city and the company was doing well. However, on July 2, 1994 (three months and 6 days later), the entire management of the company was arrested, as G.P. Grabovoi predicted.

Upon returning to Tashkent, Grigori Petrovich Grabovoi repeated the experiment of removing the imprint of the stamp from his passport. During the passport check at the Tashkent airport, it turned out that Grigori Petrovich Grabovoi's passport did not have a stamp permitting exit from the country. The border guards were very surprised that this could happen at all. But we were even more surprised because the stamp was placed in the passport in front of three people. Those present confirmed this. As it turned out later, Grigori Petrovich Grabovoi removed it extrasensorically in a contactless manner. Grigori Petrovich Grabovoi extrasensorically

erased the stamp in his passport under the conditions

APPENDIX No. 1 Sheet No. 2

to the certificate of extrasensory work of Grigory Petrovich Grabovoi, born on November 14, 1963 in the village of Kirovsky (the village of Bagara) of the Kirovsky district of the Chimkent region of the Kazakh SSR, holding a birth certificate series II - OG No. 463794.

Place of filling out the certificate: Tashkent city Date: 1997.01.31
Time: 18-00

Surname, name, patronymic of the person completing the certificate:
Zavalina Galina Nikolaevna

I hereby certify that in May 1993 I was an eyewitness and participant in the extrasensory experiment of Grigori Petrovich Grabovoi on the dematerialization and materialization of a document that I kept in my work safe, in the personal file of one of the employees of our computing center. At 9:30 a.m. on May 14, 1993, my director N. R. Morozkina called me and asked me to prepare and give her a specific document that I remembered well and kept in the personal file of a specific employee. I opened the safe, took out the personal file I needed and did not find the document there that I had left there the day before. I carefully looked through the contents of the safe and my desk, the document was nowhere to be found. About 20 minutes later, director N. R. Morozkina arrived on our territory, a second look and search were unsuccessful. I wrote a report about the loss of this document to the director. About an hour later, Morozkina N. R. called me and asked me to look through the safe documents again, because she was sure that the document was there. I did not believe this information, reluctantly opened the safe, took the folder, opened it and immediately saw the piece of paper that I had lost an hour ago, which I could not find. I immediately called the director, she was not surprised, saying that this was an experiment by Grabovoi G. P. on dematerialization and materialization of a document. The result confirmed his ability to materialize and dematerialize objects to which he had no access and which were located at least 10 km from the location.

I was indeed an eyewitness to all of the above, which I confirm with my signature in the presence of two witnesses.

APPENDIX No. 1 Sheet No. 2

to the certificate of extrasensory work of Grigory Petrovich Grabovoi,
born on November 14, 1963 in the village of Kirovsky (the village of
Bagara) of the Kirovsky district of the Chimkent region of the Kazakh
SSR, holding a birth certificate series II - OG No. 463794.

Place of filling out the certificate: Tashkent city Date: 1997.01.31
Time: 18-40

I hereby certify that I was an eyewitness to the following
extrasensory works of the psychic Grigori Petrovich Grabovoi:

1. On December 28, 1993, while at Pulkovo Airport in St.
Petersburg, Grabovoi G. P. accurately described the appearance of a

man I had known many years ago and accurately determined his attitude toward me. Grabovoi G. P. had no information about this man before the description and could not have known this man's attitude toward me, since only I knew about it and had never spoken to Grabovoi G. P. about this man before.

All of the above proves that Grabovoi G.P. has clairvoyance, which in this case includes the ability to accurately describe the appearance and feelings of people with whom a person was familiar in the past.

2. In early January 1994, I contacted Grigori Petrovich Grabovoi regarding the loss of an airline ticket for an Uzbekistan Airways flight on the Moscow-Tashkent route from December 30, 1993. I lost the ticket after taking off from Domodedovo Airport and I could not find it in Tashkent. In connection with this, I lost my annual discount ticket for the following year, 1994. 'After contacting Grigori Petrovich Grabovoi, I found my airline ticket in the place where I had previously looked for it, but at that time I did not find it.

I believe that Grabovoi G.P. carried out the materialization of an air ticket for December 30, 1993.

I was indeed an eyewitness to all of the above, which I confirm with my signature in the presence of two witnesses.

STATEMENT

that Grigori Petrovich Grabovoi, with his extrasensory influence, removed extraneous sounds from the audio recording of his voice

and added text in his voice to the audio cassette.

I am a witness that Grigori Petrovich Grabovoi on 27.02.97 with his extrasensory influence removed extraneous sounds from an audio cassette with a recording of his voice and added text to the audio recording with his voice. At the same time, the added text with the voice of Grigori Petrovich Grabovoi did not differ in any way from the voice of Grigori Petrovich Grabovoi previously recorded on audio tape during a face-to-face conversation with him. Grigori Petrovich Grabovoi carried out his extrasensory influence without knowing where the audio tape was.

Please certify my application on the basis of documents proving my identity and on the basis of the above evidence.

TO ALL INTERESTED PARTIES

Applicant: Lavrushkina Nadezhda Borisovna, residing at the address: Moscow, Malygina st., 8, apt. 178, Tel. 475-75-61

STATEMENT

that Grigori Petrovich Grabovoi, in the conditions of a pure experiment in the building of the ZhSO of Trade Unions, located at the address: Moscow, Solyanka St., 14/2, office 110, partially dematerialized and then materialized a metal key weighing 10.0 g.

I, Nadezhda Borisovna Lavrushkina, born in Orekhovo-Zuyevo, Moscow Region, on June 6, 1953, residing at the address: Moscow, Malygina St., Building 8, Apt. 178, passport series XYIII-UK, No. 628733, issued by the Department of Internal Affairs of the Orekhovo-Zuyevo City Executive Committee of the Moscow Region on September 2, 1980, am a witness to the fact that Grigori Petrovich Grabovoi partially dematerialized and then materialized a metal key weighing 10.0 g on November 20, 1997.

During the period of time when Grigori Petrovich Grabovoi carried out the dematerialization and materialization of the key, the key was located at a distance of 50 cm from him. There was no physical contact with the key. The experiment was conducted for 5 minutes.

These facts are reflected in photographs 1, 2, 3, 4, taken under equivalent conditions. In f. 2, a partially dematerialized key is taken in relation to the key depicted in f. 1. In f. 2, it is evident that the rod connecting the handle and the base of the key is practically invisible (the principle of discrete materialization). In f. 4, the image in relation to the image in f. 3 is brought out behind a thin screen (the principle of complete dematerialization of the object); f. 4 shows the first step of complete dematerialization, in which the depicted physical object, including when controlled by physical vision, becomes less distinct.

Dematerialization and materialization of the key from a distance of 50 cm was carried out by Grigori Petrovich Grabovoi at the address: Moscow, Solyanka St., 14/2, office 110, MKSO of trade unions.

Personal data of Grigori Petrovich Grabovoi: born November 14, 1963 in the village of Kirovsky, Kirovsky district, Chimkent region, Kazakh SSR; birth certificate series XI-OG No. 463794.

STATEMENT

on establishing the fact of recognition of Grigori Petrovich Grabovoi as capable of transmitting

speech audible to the physical ear at a distance

Date and place of birth: I was born on 1946.12.22, Kanevskaya station, Krasnodar region

name of the document, series, number, by whom and when the document was issued: passport III-OB No. 656912, issued by the Department of Internal Affairs of the Moscow District Executive Committee of the city of Ryazan on 12.04.79.

Place of work, position: I work as an accountant

In connection with the fact that I contacted Grigori Petrovich Grabovoi, born on November 14, 1963 in the village of Kirovsky, Kirovsky district, Chimkent region, Kazakh SSR, holding a birth certificate series II-OG No. 463794, the reason for contacting: in November 1997 regarding the illness of my grandson Radlevich Andrey,

I declare that Grigori Petrovich Grabovoi can indeed transmit speech audible to the physical ear at a distance. This is confirmed by the fact that my daughter, knowing the day and hour of the session, did not know Grabovoi's first and middle names. During the supposed session, she was in the hospital with her grandson. Looking at her watch, she thought, Grabovoi should be working now, but what is his name? And she clearly heard: my name is Grigori Petrovich, I work with your son, do not be afraid, I will help him. She was dumbfounded and mechanically said, well, thank you. My daughter is a doctor and realistically assesses the situation, but she physically heard the sound of Grigori Petrovich's speech, although he was not nearby.

Daughter, Radlevich Natalia Vladimirovna, phone 765-06-48 or 476-98-28

Please certify my application on the basis of documents proving my identity and on the basis of the above evidence.
