

GRIGORY GRABOVOY
The Doctrine of the Resurrection
**Fundamental Laws principles
and methods of resurrecting people in the Infinite Life**
(5)
17.09.2002

[...] is driven by your goal

because when we talk
about search engine
that everything exists in Reality anyway
in Infinite Reality

then your Reality is like this
that you have a goal, i.e. completing a task
and any element of Reality
will be inside this target

i.e. you set a goal
you have come to what you want

The next exercise is based on that
that when you consider the Infinite World
then you must first see yourself

i.e. look here
and always feel yourself

then it turns out you are there
in integration i.e. in connection

in a natural state of harmony
with Infinite Peace

and at the same time you do the right things
because you perceive correctly

in this case you should consider
namely the Infinite structure of events

the next exercise is
that when you look at the world
with open eyes

you see that they are open by you
and you should watch
as the eyes are opened by your Soul
and at the same time the events should be close to you

the next exercise is
that when you see the World through the eyes of the World itself
then you should see
what are your eyes built by the World
and see only
only from my own eyes

the next exercise is
that when you look at your hands and feet
then you should see the world
which is built by hand for example yes

or when you see your body
you must see
how your body is built
i.e. look at the essence of the organization of the World
and you will see the essence of Infinite Life

what matters here is
what are the fundamental Laws of the World
they must be implemented for everyone

the next exercise is
that you can see the World of Reality like this
which you can recreate in the Infinite Future

i.e. you in this exercise
you can see it quite well
exactly that Reality which is being recreated

and how to see
this is already a problem that has been solved
in this exercise in the first phrase

the next exercise is
that when you look at Reality
you must see
the structure of its development in Infinity

those. for example a leaf of a plant
any information object in general

Human
you must see
how it develops in Reality
this structure

the next exercise is
that the Infinity of the World
should be perceived in local things
for example the table in front of you or the sky
or some object of information

you must in this object
in a specific place
see the Infinity of the World
i.e. to highlight in your Perception
as a special task

apparently it's not even necessary often
to see physically in some place
but it's even better to see
through spiritual vision
then you will see
that the object is Infinite

the next exercise is
what Infinite objects
therefore, they are included in the properties of community
and these properties are as follows
what if you see two objects touching
then you get
Infinite third object

and the Endless Third
this is the one first

we need to look at Reality like this

the next exercise is
that when we talk
about meeting the resurrected
and it turns out that in the material and ideology of this lecture
with the Infinitely Living
then the main task is naturally
the fastest possible implementation of this meeting
i.e. well, the normalization of Reality to this level

so the exercise consists of this
so that from the point of view of logical actions
do not deviate from the main task

i.e. the whole task, in general, the whole range of tasks
they only touch on one simple thing
need to meet with the living Infinitely actually
in the ideology and material of this lecture
and therefore the exercise is as follows

withstand Perception
some external things
there optical systems as training in this way
to linear vertical streams of light
which you see with your spiritual vision
this is your physical vision
they were recorded like this
so you can see
how organization comes from light
well, for example, there is the nearest microelement of matter
is air there for example

and as soon as the air was realized
remember this
exercise can often be lengthy
i.e. remember to record
i.e. to record this Reality

from external light
and then you will see the inner light
coming from you to everyone

when you see how the light goes to everyone
and how to make Reality
for all fixed and forever
what is Infinite life

there are permanent residents
i.e. infinitely living people
originally Infinite
and not by the fact of birth , for example
and you can explain this to everyone

the next exercise is
that again realizing the task
on the concentration of that

that it is necessary to meet with the Infinitely Living
which, for example, had a certain level of care, or something like that

it is necessary to do so
so that all external information objects
there are surrounding houses surrounding phenomena events
wore a fixed uniform
the presence of this person

and the exercise is in that
so that each reflected ray
of your Consciousness
optical system in Consciousness
wore his image
which will reproduce
in the form of an ordinary living person
in a social environment, i.e. well, in contact with you
and in the ordinary life of this person

where defined
how does he live
what he does etc.

i.e. we are talking about that
what applies here
external information objects
which have settled in memory or physically

however, when it comes to a person
in this context
then there is a special level of collective management
i.e. they should see in a person
conscious collective management
because we are talking now about the resurrection of people

but there is no distribution to any information objects
it is a certain universal method of distribution
it's not that difficult
and basically the same type
the next exercise is
to transfer methods
which you have upon the resurrection of people
Fundamental Laws of Human Resurrection
or the principles of resurrection of people in general
methodological data
or conceptual data

and actually meetings with the Infinitely Living
transfer them to management
any objects of information

and here is the exercise of transference
that having a certain methodological base
or a specific method or fundamental Laws for example
you can make the transfer with a very simple action
you need to become self-aware
in helping to ensure that everything is generalized
and you have only the development of your own Spirit
who can always
prevent, for example , a possible global catastrophe there
or to ensure Eternal harmonious development
or is it both at the same time

because that's the main thing here
be able to find such a position
that this is your calm spiritual state
then you won't have
some special search tasks

i.e. that's when you know more material
and in a calm spiritual state
defines these positions
then you actually already have that
which is applicable to everyone

after all, your calm image and your image
this is the dissemination of knowledge

and when the image is like this
what is at the level of the Soul
at the level of actions
you are confident and calm
then it is quickly transmitted to everyone

but it really is so
for example, if you consider
how the world is structured from the point of view of transmission

that stable fixed forms
more information is transmitted

when you are absolutely stable and calm
and you have fixed data

where there is precision technology
fixation on the fact that you have the technology
then you calmly pass it on

because what I said today
This is the first time I've used this point of view
it is about the Infinite Life and about that
what is always in the Infinite Life
Human
Well, because previously it was precisely this point of view
I didn't use it
and it is now the most optimal

you can see it here
what can be found and applied
certain positions
where is the point of view
This is a fundamental Law
this is knowledge from the Creator

because knowledge comes from the Creator
this is what really saves
that which leads to the result of Eternal Infinite development
Eternal development

in this regard the following exercise
it consists of the following
that you must see yourself through the eyes of others
just as others see themselves with their own eyes

and now the exercise is as follows
already in a certain series we will say
it is what it means exactly in the series
concerning Infinite development
I specifically highlighted it as a series

first
the exercise is like this
what's in this series of Infinite Development
that you have a common knowledge
because you are one

second
you have knowledge because
that knowledge is universal

third
you are on the right path because
that the path is one and it is true

fourth
Infinity of development
this is your personal Infinity
it's you

fifth
you look at yourself because
that everyone sees you
and the Creator sees you and He gives you the way

sixth
you are moving there
where is Eternal life
where is there infinite life
and where is the distribution technology
Spectrum of Infinite Life
and where do you see everything like this
that everything can always be transformed
towards Infinite Life

seventh
you have that path
which you yourself create by the fact of your existence

eighth
then you look through the eyes of the Creator because
what can you create
and therefore you act as the Creator

ninth
you can information of being
make being for all
and your being determines the Infinite development

tenth
when you look and see
you are at the same time
and you exist because there is an external view of you

thus in the series
exactly these ten exercises

it is advisable to read and understand them
precisely at the task level
tasks of Infinite development

so here I have a set of exercises
I'm finishing

I would like to say one more thing as an afterword
certain data concerning that
how to perceive well So let's say the world as a whole
in order for your spiritual position
it was definitely predetermined
towards Infinite development

so here it is necessary
consider the next level
which first of all gives you

namely Infinite development
coming from you now

the truth is
that when you look at the Infinite Life
then you see Infinity as all-encompassing

and at the same time when you look
to such Infinity
then it is realized at your level
so how is your personal development

and seeing this Infinity
as Infinite life in fact
you see that life is all manifested
because you are present in it
and when you see your presence
you see it through the eyes of the Creator

you can look at the outside world
and see
that the world is one
that all are united by the task of community
goals of universal salvation
Eternal and Infinite Life

and when you come to this
you see your essence

personified by your personality

when you look at your personality
having an original essence
from the Creator
that is the path of the Creator
before you is strewn with flowers in fact

you can see flowers that are eternal
and when you walk on these flowers
without touching them or crushing them
you can see that
what is given to the Eternals by the Creator

set the task of not crushing the flowers
set the goal not to touch life
from her point of view, for example, well let's say disunity
at the level of heterogeneous ambiguous goals
and you will see that if you do not separate
and how to strive for unity of goals
then you will be able to see
the essence of his organization
which is the organization and structure of the Soul

that's when you'll see
organization of your Soul
then the way to you
it also lies in your actions

that's when you set the task
do not separate for example
thus you can set the task
unite

and here you can see
that any setting of tasks
or combine
or not to separate
or not to reconstruct
in the sense of a kind of de-reconstruction

this task always leads
to a single Infinite development
if you put
It is the ideology of Eternal Development

when you listen to this very text
which I am giving now
then here we have
a very simple Truth reflected in that
that any of our actions
directed correctly in ideology
it leads to the Truth
which is implemented for everyone

and that's when you want
this Truth realized for all
make it your Truth
because there is a task
realized Truth from you
make it your Truth
i.e. your inverse problem
the task of the Creator is to
that Infinite development is the Truth of the Creator
which is reproduced and realized in people
and in general in any information objects

so "make it your own"
it means to spiritualize
it means to make life

this way you can make life
life that is endless
which has an Infinite path to realization
and the life that exists and develops now
this is also Infinite Life

you just need to start from this position
to see this life
then you will see
that the Infinitely Living is that Norma
to which you can bring everyone

and now having done my own
means close to the Soul
to yourself
bringing his own
already done for everyone
you organize the Infinite Life

Thus

a word aimed at Infinite life
this is your word

because everyone is united
in one word
aimed at Infinite Life

and you should see
where is your word
in the word of all

then you see the concrete Truth
reflected in that
what is Infinity
this is your natural state

and the natural state
gives a natural level of realization
you realize that you are Infinite

I'll stop here
his lecture

thank you for your attention
